Smile Design Integrating Esthetics And Function: Essentials In Esthetic Dentistry, 1e

Synopsis

Jonathan B. Levine DMD presents a new volume designed to introduce practitioners to aesthetic dentistry with the goal of safely expanding his or her current scope of ethical dental practice. Richly illustrated in full colour throughout, this beautiful yet practical volume introduces the subject of smile design to the reader with topics ranging from aligners and veneers to space management. Smile Design Integrating Aesthetics and Function will be suitable for dental practitioners worldwide. Experts of international renown present the latest scientifically authoritative and evidenced-based information, amply supported by a high-quality line artwork and photographic illustration. Describes in detail assessment techniques for smile design, the use of trial procedures and the use of photography, aligners, and ceramic veneers. Highlights the way in which high quality esthetics can be achieved with a range of techniques. Emphasizes the importance of effective communication between the dentist, the oral healthcare team and the patient to ensure the patient's and team's expectations are appreciated, managed and met. Designed to challenge traditional thinking, advance knowledge and expand the clinical approach to a growing discipline. Offers a highly visual, practical approach in a unique series format. Aims to strengthen, enhance and expand the scope of aesthetic professional practice. Essentials in Esthetic Dentistry is a beautiful new book series from Elsevier - is under the editorial leadership of Professor Brian J. Millar, BDS, FDSRCS, PhD, FHEA, Consultant in Restorative Dentistry, Professor of Blended Learning in Dentistry, King's College London Dental Institute, London, UK. Each volume in the series is edited by the highest-profile practitioners and specialists from the USA and Europe and has guest contributors from throughout the world. The series aims to provide both a basic and advanced body of knowledge of the many and varied procedures used in esthetic dentistry that are considered by many to be paramount to successful modern-day clinical practice. The series includes a broad range on invasive and non-invasive procedures to suit individual philosophies and international trends.

Customer Reviews

Jonathan B. Levine is the Program Director of the Advanced Aesthetics Program in Dentistry at NYU CE and Clinical Assistant Professor at the NYU School of Dentistry. He has almost 30 years of experience in dental practice in NYC where his high profile work has led to him being regularly approached by the media and health industries to provide medical advice and aesthetic insight. He is part of Doctor Oz's panel of medical experts and a contributor to the Oz Blog. In 2011, Dr. Levine founded GLO Science - an oral health innovation engine commercializing inventions to build an oral health platform via a therapeutic device that also has cosmetic implications. Dr. Levine developed the GLO Brilliant Personal Teeth Whitening Device which received the 2012 Edison Award for innovation in a personal care product. Dedicated to contributing his professional services to humanitarian efforts, Dr. Levine founded the GLO Good Foundation, which supports oral health initiatives in underserved populations around the world. In addition, Dr. Levine is a board member of Foundation Rwanda, an organization that helps the children of the 1994 genocide, and serves on the advisory board of Health Corps, a national service and peer-mentoring initiative.

This book is a review of the most current methods of achieving functional esthetics and occlusion, and is a valuable reference.

wonderful book for a dental student studying esthetics and dentistry!

It's a spectacular book. Every smart dentist has to have one because it builds a great comprehensive process for the aesthetic field in dentistry.

Essentiel

As I needed

Good. But I waited for almost 1 month, The express is bad
