I am happy with my purchase

Love this series!

I loved it when I got it in the mail was a great book to read has a lot of facts on Steven Spielberg which is fantastic. Steven Spielberg is a very cool person and it's fun to read about his passion for

movies as a kid and how he grew up to become the most successful director of all time! If it weren't for Steven, lots of the great movies we know today as amazing and classics wouldn't have ever existed! From Jaws to Lincoln, you'll be fascinated by the life of this famous director.

This is in a classroom reading library. The students love learning about every day people. This is one of many and have proven to be a very popular non fiction book. Getting kids to enjoy non fiction is often challenging. Highly recommend these books. Steven and the pic of the shark was a big hit!

This was a gift for my 15 year old nephew, who absolutely loves to read. It may seem a little elementary but it's a great introduction to the biographies of those we know so much about, yet so little.

My 14 year old grandson is a budding film writer/director. I bought the book for him even though it is geared toward a younger audience. Needless to say he loved it. So if he is happy, I am happy!

This is a great book and series, so read it! Support the authors! HOWEVER: This has a picture of a bunch of tarantulas (well, an illustration of them) so if you have arachnophobia, then be cautious! But other than that, it is excellent!

The biography is complete and interesting for young learners. I bought them for students who learn English as a second language and they are suitable for them.
