# The Daily Show With Jon Stewart Presents Earth (The Audiobook): A Visitor's Guide To The Human Race

## Synopsis

Where do we come from? Who created us? Why are we here? These questions have puzzled us since the dawn of time, but when it became apparent to Jon Stewart and the writers of The Daily Show that the world was about to end, they embarked on a massive mission to write a book that summed up the human race: What we looked like; what we accomplished; our achievements in society, government, religion, science, and culture - all in a lavishly produced audiobook of approximately 200 minutes. After two weeks of hard work and nights in the recording studio, they had their audiobook. Earth (The Audiobook) is the definitive guide to our species. With their trademark wit, irreverence, and intelligence, Stewart and his team will posthumously answer all of life's most hard-hitting questions, completely unburdened by objectivity, journalistic integrity, or even accuracy. Read by Jon Stewart, the Daily Show correspondents, and featuring a special performance by Sigourney Weaver.

## Book Information

Audible Audio Edition

Listening Length: 3 hours and 38 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Hachette Audio

Audible.com Release Date: September 21, 2010

Language: English

ASIN: B0043URLMI

Best Sellers Rank: #15 in Books > Audible Audiobooks > Humor > Parodies #24 in Books > Audible Audiobooks > Humor > Political Humor #91 in Books > Humor & Entertainment > Humor > Political

## Customer Reviews

Wonderful book. You must read it in spurts because you will become over-saturated with the comedy.

Very funny book, lots of great satire in the book and would highly recommend (however if you are looking for a factual book this is not the one) but gives you funny insight on some things and can still be great fun and a great time to read. Makes me laugh everytime I open the book and I am looking forward to reading Jon Stewarts new book.

Does what it's designed to do

Like new. Good price.

I was very excited to see this book, and I was a huge fan of America: The Book. This book was very disappointing when compared to America: The Book. There were some funny lines in it, but overall, it was just "enh". As an American Politics instructor who reviews hundreds of American Politics textbooks, America: The Book was hilarious cover to cover. This book just seemed forced, and I stopped reading it about two-thirds of the way through the book. I was bored by that point, and that is not a good sign.

Should be mandatory for every high school in America.

I thought this would be a regular book and was taken by surprise by the fact that this is done as a textbook. I suppose that does make more sense and did make it better. A lot of it is very funny, but there were some parts where the humor seemed very inorganic and the writers just felt they needed to get another joke in to fill space. Still, very funny and a quick read. Probably great for a coffee table to pick up and get a laugh quickly.
