fine

as expected

My teacher asked me to buy this book. It systematically teaches me bowing technique and trains my left hand as well. Melodies are beautiful. I'm not bored playing these etudes.

Each etude has a certain degree of challenge built into it. The exercises are generally quite melodic and are not boring.

these etudes are extremely fun to play. truly I have looked forward to practicing each day for the past month when I worked on one a day.

I purchased this for my daughter and she says that it is excellent. She highly recommends it and purchasing this product.

i ordered 3books all books are same missing pages and wrong print.

Essential violin etudes that build tone and technical skills progressively with very musically-pleasing pieces. Each piece focuses on a certain technical aspect and sounds like a solo piece with a distinct character. A must-have for intermediate players.
