## Customer Reviews

2013: This is a must have publication of you are taking a boat to the Abaco's. It is also most useful as a detailed travel guide. --2013: It is very good for getting the layout of the islands even if you are land based and renting a powerboat. --2012: The Best Abaco Guide;I have tried other guides but come back to this one every year. The local knowledge and descriptions of each location, route, etc. are excellent. I cruise with this guide open in the wheelhouses. It is great! --

Steve Dodge is Professor Emeritus of History at Millikin University in Decatur, IL. He lives at White Sound, Elbow Cay for part of each year, and also has a residence in New Smyrna Beach, FL. He has been doing research and writing on the history of the Bahamas for over thirty years, and has

published several books, including; Abaco: The History of an Out Island and its Cays.

The Cruising Guide to Abaco is a wonderful help on board as well as for planning a sailing trip in the Abacos. It has all the necessary charts for approach planning and nice aerial images showing the way to anchorages. To make navigation easy there is an outstanding set of GPS waypoints you can use with the boat's plotter. An exceptional help are the charts of dive moorings and dive spots to find all the dive spots on your own not being dependent on the dive shops and their preselected dive spots schedule. I wished this guide would be regularly available in Europe as well.

This book (Steve Dodge's Cruising Guide To Abaco) along with the Explorer Chartbook (explorercharts.com) are THE 2 essential resources for cruising in the Bahamas. Explorer Chartbook contains the most accurate cartography for the Bahamas (unfortunately, the unedited digital version is only available on Garmin Bluecharts).

This is a very handy guide, complete with photos, descriptions, handy waypoints, and much more information one needs to know for a successful voyage in the region. A great planning tool and a good value.

Excellent reference book. Looking forward to using it as a guide during our trip there in January
