## Customer Reviews

"A friendly and thorough book that covers everything you want to know, and many things you may not even know you need to know, about exploring prostate play."#151;About.com"I recommend this book to anyone that is into, getting into, or even just curious about prostate play."#151;Mr. Will's House of Thrills"A truly comprehensive guide to prostate play. While the authors have been

careful to thoroughly address the basics for beginners, more experienced players will still find this book useful."#151;Mistress Jadis"The book reads well, approaches subjects in a readable way, and is informative and candid. It feels as though you have a prostate sex expert in the room with you as you read it, ready to answer any question you may have and reassure you that your desire to experiment is fine!"#151;John D Stories"This is a wonderful book for anyone interested in learning more about the prostate, whether you have one or love someone that does."#151;Property of Potter"Both easy and fun to read and written in a very entertaining style &#150; the language colorful, but not so much so that it distracts you for the massive amounts of information the pages provide. I&#152; definitely recommend it to anyone of any sexual orientation."#151;Quixotic Orchid"Not only does The Ultimate Guide to Prostate Pleasure provide detailed, practical advice about prostate stimulation, it is inclusive of transgender women and genderqueer people, and it comprehensively addresses cultural constructs of masculinity that may prevent men from enjoying prostate play (for instance, the idea that heterosexual men do not enjoy sexual penetration). I loved reading it and would highly recommend it to anyone interested in this topic."#151;Laura Anne Stuart, SEXPress"If you only have one book about prostate play on your bookshelf, The Ultimate Guide to Prostate Pleasure should be it. In fact, I&#152; go so far as to say that it&#152; is the best book on anal play of any sort that I read simply by being inclusive, realistic and easy to digest."#151;Of Sex and Love"You&#152;ve heard of G-spot orgasm, now let's move on to the P-spot. This is THE guide."#151;Barbara Carrellas, author of Urban Tantra"When this book says ultimate guide it means ultimate. I swear they cover every question that has ever been asked, or possibly will be asked about prostate play!"#151;Clitical"I would feel confident recommending this book to anyone interested in exploring prostate and anal pleasure from an absolute beginner to an intermediate level player. Even if you have taken a course on this topic previously, The Ultimate Guide to Prostate Pleasure serves as a fantastic reminder for all the tidbits of information consumed in the course of a class."#151;The Sex Lady"After interviewing 200 men and their partners Charlie Glickman (who I have personally referred to as a &#147;prostate whisperer&#152; and &#147;prostate Batman&#152; clearly he&#152; is my go-to source on all things prostate) and Aislinn Emirzian have produced a roadmap to prostate pleasure that I can only describe as exhaustive, in the best possible way. This book serves as an &#147;intro to prostates&#152;, a guide to pleasure through prostate stimulation and a discussion of the stigmas that surround the activity all at once. Regardless of your orientation or experience level, even if you have no immediate plans to stimulate a prostate, this book is an immensely valuable addition to your library."#151;The Redhead Bedhead"Charlie and Aislinn have done a fantastic job compiling

all the info into an easily accessible guide. I HIGHLY recommend it. It would be pretty awesome for a couple to read it together. In fact, this book and a beginner prostate toy would make an extremely thoughtful gift."#151; The Beautiful KindThe Ultimate Guide to Prostate Pleasure is a great book. I love its language especially; clinical when necessary, a dash of tongue-in-cheek humor, and then its casual/relatable the rest of the time. Thank goodness, really, it has been quite refreshing to finally be treated like a real, live adult by a "how to" book, instead of a "dummy". And it isn't just the language that has me smiling, it is that the reader starts with FAQ's AND THEN, the authors answer those questions right away! How cool is that? I was pleased that I didn't have to wait until the end to get answers."#151;Rose Caraway"Men who may not feel confident exploring anal play will be empowered to claim the prostate as an erogenous zone ripe for exploration. And men who already enjoy prostate play will find much to learn from sex educators Charlie Glickman, Ph.D., and Aislinn Emirzian, whose wisdom and warmth will be both reassuring and inspirational to readers."#151;Erotic Readers and Writers Association"Women have their G-spots. And thanks to the prostate, men have their P-spots. Most gay men are fully aware of this special internal playground, but what many don't know is how to make sure it's reaching its full potential. Until now. Say hello to The Ultimate Guide to Prostate Pleasure: Erotic Exploration for Men and Their Partners. Think of it as kind of a Back Doors for Dummies. Or Everything I Ever Needed to Know About My Prostate I Learned from that Kindergarten Teacher I Banged Last Week. But in all seriousness, this is an extremely interesting read (and the homework's fun, too). Written in a very conversational tone with limited use of clinical sounding terms, it's filled with advise on not just how to make this tiny gland the life of every party, but also how to maintain its health. It answers any possible question you might have, plus dozens you've likely never considered. Read this book and who knows, you might just learn a few new tricks. Which in turn might help you get a few new tricks."#150;Gay List Daily"This modern guide will steer you past any hang-ups and gently around anatomy's curves to bring you prostate pleasure and orgasmic thrills you never knew you had coming to you. If you've got questions, Charlie and Aislinn have got the answers."#150;Dr. Sadie, Author, Tickle My Tush"#151;Mild-To-Wild Analplay Adventures for Everybooty"Dr. Charlie Glickman and Aislinn Emirzian have written the end-all guide to prostate pleasure. This book will appeal to so many different groups of people - solo, partnered, vanilla, hetero, queer, bi, gay, young, old... everyone who wants to know more about this oft-ignored source of pleasure in one's sexual repertoire. The focus of this book is on informing beginners through masters level everything from dispelling myths to basic communication skills to the how-to's

of giving or receiving prostate pleasure. Well done!"~Lanae St.John, Sexologist & Sex Educator  
"The MamaSutra""I appreciate that I was exposed to new ways of thinking about prostate stimulation and to perspectives that Charlie and Aislinn have gleaned from others's trials, errors, and significant pleasures. This very good book will likely influence many people's sexual lives, and ways of thinking about sex and what it means to be a man (and a sexual man), for years to come."#150;Debbie Herbenick, author of Great in Bed"This superb guide combines the friendliness of a good buddy with the savvy knowledge of a top-notch sex educator, explaining the in's and out's, how's and why's, of prostate pleasure, including answering those questions you thought you couldn't ask anybody. Whatever you want to know about the pleasures and the how-to's of prostate stimulation, it's in this book."-Joan Price, author of Naked at Our Age: Talking Out Loud about Senior Sex"A great addition to a largely underground history that is finally coming into the light. Everyone deserves the sex information that will make their desires consensually possible, safe, and full of pleasure." #151;Dr. Carol Queen"A very thoughtful and well-written look at this hidden but important part of male sexuality. Highly recommended for any man or couple who wants to explore the prostate and its potential for extra sexualpleasure."#150;Paul Joannides, PhD, author Guide To Getting It On

I had read articles and reviews about this book (all positive and informative) and they were all true! This is a wonderful book for those that are curious or want to experiment with prostate stimulation. It has a sort of step-by-step explanation from the very beginning so novices that are basically just starting out have something to go on. Also, it debunks some terrible myths and give light to

questions questions people have about this area. I enjoyed it very much and passed some information on to my boyfriend.

Lots of good info. Shows that prostate pleasure has nothing to do with "gay." Read it in 2 evenings. It can do a lot for your fantasy-life!

very technical

Good perspective physically & emotionally for both men and women who are considering prostate massage. Addresses all of the considerations.

My recent GF has been searching for a more detailed book on prostate massaging and exploration in pegging...this kindle book is a great read and guide. I would recommend to anyone interested in opening new worlds of sexual enjoyment for both he and she

I love this book. I have learned and experimented many of the areas and I must say i am pretty good at it....

This is a very well written book for anyone looking to understand how to stimulate the prostate.

I've been enlightened! honestly its a great book on a topic people should know more about.
