Credit Insurance

Synopsis

This monograph is practically oriented, presenting a survey and explanation of credit insurance services for protection of short-term trade receivables primarily against commercial risk of insolvency and protracted default. The subject matter (i.e., main functions, features and principles of credit insurance with detailed description of credit insurance coverage, insurance conditions, and credit insurance policy management) follows procedural stages and presents commercial, financial, legal, and practical points of view which emphasize the needs of both the providers of these services and their clients – existing and potential credit insured companies – as well as other practitioners. Explains how credit insurance has changed from an esoteric type of property insurance into a flexible and frequently used credit risk mitigation tool used on a global basis. Compares credit insurance with self-insurance and equivalent substitutes. Describes the types of insurance available and how to obtain and manage credit insurance policies.

Book Information

Paperback: 186 pages

Publisher: Academic Press; 1 edition (March 25, 2013)

Language: English

ISBN-10: 012411458X

Customer Reviews

"The Best English-Language New Releases"; - BILANZ, September 2014 "contains the bulk of the information executives would need to make informed decisions on how to protect their short-term trade receivables. GetAbstract recommends this concise but thorough text to risk management professionals and to managers whose global or domestic businesses involve trade on credit. Rating = 7" -- GetAbstract.com, July 16, 2014 "In making a case for the advantages of credit insurance for businesses, Jus explains its history, terms, functions, principles, types, costs, processes involved in obtaining and administering such insurances, risk management policy, and

claims handling. The book includes examples, figures relating to risk and credit, boxed information (e.g., on insurance vs. credit self-insurance), interspersed words of wisdom, and a bibliography of print and online sources."--Reference & Research Book News, December 2013 "Although this compact text lacks the structure to be a quick or easy reference guide, it certainly contains the bulk of the information executives would need to make informed decisions on how to protect their short-term trade receivables. getAbstract recommends this concise but thorough text to risk management professionals and to managers whose global or domestic businesses involve trade on credit." --getAbstract, July 2014 "The Best English-Language New Releases." - BILANZ, Switzerland's largest business magazine

Miran Jus, Ph.D., is the Executive Director for Structured Financing and Legal Affairs at Korona Power Engineering, Inc. He also serves as an Assistant Professor of Finance at the University of Ljubljana.

Very clear explanations and well supported examples. Credit insurance is a great tool for credit trade, but is difficult to obtain good material to understand it.
