The fourth volume of Lawhead's ambitious Pendragon cycle, in which he attempts to combine Atlantean myths and the Matter of Britain, arrives at last at the reign of Arthur, and Lawhead's treatment is admirably original. In it, Gwenwhyvar (that is, Guinevere) is faithful to her lord; Arthur is Christian, though not kind to meddling, corrupt, or lazy clerics; and the climactic battle is fought against unusual but not implausible enemies, the Vandals and the Irish. Sound writing and scholarship alike assure the book's appeal to both the casual fantasy reader and the serious student of Arthurian material. Neophyte Arthurian fiction readers can still profitably begin with

Rosemary Sutcliffe and Mary Stewart, and no one should start reading Lawhead's saga with this volume; but with those things understood, it is highly and widely recommended. Roland Green

"Lawhead brilliantly creates an authentic and vivid Arthurian Britain."--"Publishers Weekly"

Everyone who has read and wondered about the legend of King Arthur and have read about or have seen the movie "Camelot" or the TV series Merlin, will have a basic knowledge of the tale of Merlin and Arthur and want to know more, you should endeavor to read this series but be forewarned it is a task to try and read them you will need a strong commitment. Stephen Lawhead has written a monumental series.

A fine addition to the wonderful "Pendragon Cycle". Follows Arthur, Merlin and other characters from the "Summer Kingdom"! Fans of myth and fantasy reads will want to indulge in this entire series. JRR Tolkien readers - jump in on this!

Pendragon is a great series. There is lots of subtle story lines within the main story. Easy read as most of the books took me a week to finish. I would recommend getting the e-book as this will cost way less than paperback. Before you start the series, make sure you read the books in the proper order. This is not the same order they were published. I know its weird but I learned this after I finished the entire series. I think the order is Books 1, 2, 3, 4 (first half), 5, 4 (second half). This puts the series in chronological order. Also, if you liked Pendragon, I would recommend Hood, Scarlet, and Tuck. Its about Robin Hood but with a Welsh twist.

I would actually give it a 3.5 or 3.75 out of 5. The franchise is starting to show some strain. Mr. Lawhead stresses that he is basing his retelling on materials earlier and less muddled than other versions but I could not escape the feeling that some twists and skewed events were written in that way just to be twisty and skewed. In other words, I was not so immersed in the world that I could leave behind the more familiar legends. I enjoyed it but will not be going on to the next books in the series.

This is a great book that I've owned for years. I was somewhat disappointed in the audio narration. The narrator's voice is kind of annoying, and he seems to emphasize the wrong words on occasion.

The entire series is fantastic. I read all five of the books and lost myself in a world of brave men, strong women, magic and myth. I love that all the stories are told from the point of view of people involved. I have discovered a new (to me) author and can't wait to order the Dragon King Series. I downloaded all to my Kindle. I have always loved to read and stopped because I developed arthritis and it hurt my hands to keep books open. I LOVE MY KINDLE AND THE KINDLE VERSION OF THE BOOKS!!!!

As w/Lawhead's other books in the Pendragon Cycle, Pendragon is a very exciting book. His use of Celtic names for the main characters in the Arthurian legend are enticing, once I learned "who was who." Lawhead's characters are humanly fallable, but yet led by the Holy Spirit in their effort to establish the High King of Britain as representative of Heaven's High King. Each book in the cycle drew me inexorably to the next book. Five stars for the whole Lawhead and the whole Pendragon Cycle.

A very good take on the Arthurian legend that draws you in and keeps you reading! Grail up next. ;
