Grandson loves this game

I picked this game up (Angry Birds Star Wars) in the app store, and it's a blast to play! The book also provides great tips and tricks which makes play the game that much more fun!

Not what I expected... thought it was the game ap. I tried to purchas this for my sons new tablet and

it ended up being a book!

Great game the boy love this game keeps him. Busy for a long time so you have one very happy aunt

I noticed some cheap games for the kindle and I was surprised to see the Angry birds Star Wars Game for 2.99. The price surprised me, but I guess volume and no software in the mail and no written instructions still means a good profit. However, unless I'm missing something, I don't see a game- just lots of instructions. Looks interesting, but it's a little like reading about the Grand Canyon without ever going there.

I like the ability for children and adults to participate and play together or separately and the variety of levels..

--This is NOT a game but a book! No where does it say it is a book. This is very deceptive and disappointing.

When my boys requested the kindle edition angry birds star wars game I went to and typed in: "Angry Birds Star Wars Game." It was late and I wanted to download and simply go to bed after one game. I did not do the 200% read through and soon had an almost sobbing son. "Mom, you got the book not the game." I looked again at the title and said, "No, the title says game honey." I opened the app and he was correct, it was a book.:(Yeah to reading, but thumbs down to marketing misleading everyone to spending \$\$ they had not intended to spend.
