Good, quality book but it is a little hard to follow. Maybe the format could be updated? Include more highlighted sections and summaries?

Exactly what I needed.

Text book. Offers an understandable introduction to legal philosophy. Altman actually made the subject interesting--a feat I thought highly impossible!

got the book I needed in a timely manner in the condition expected. I am happy and will use this seller again.

This introduction to the philosophy of law does an exemplary job of distilling key points in the major perspectives down to understandable, bite-size chunks. It is neither long-winded nor simplistic. An admirable accomplishment.
