Another good collection for Bb saxophones either tenor or soprano. All are transcriptions of music written for other instruments. Good editing, easy to read type. For advanced and experienced intermediate players. Includes piano accompaniments. Great for advanced high school players and/or recital pieces or encores.

It is very common that most of the classics is written or adopted for alto sax. This book is the only one I could find fast with music for tenor(soprano) sax. Variety of very well chosen, edited and printed classical tunes for the Bb sax from middle to advanced level along with piano part. The companion CD you have to buy separately has piano part performed by professional pianist which really helps if you have no classical performer around. Highly recommended for any serious tenor performer for study and concert.

Perfect, easily read, great arrangement

Faster than expected.

These all were very amazing items and were given as presents
