She has served as a member and officer on numerous boards which include Hospice of

Southern Illinois, the Marion Memorial Health Foundation, the American Cancer Society, and Women for Health and Wellness in Southern Illinois. Ms. Cash has authored several chapters in other textbooks and is the co-author of Family Practice Guidelines, first, second, third, and fourth editions, and Adult-Gerontology Practice Guidelines. Most recently, she was awarded the 2017 AANP Nurse Practitioner State Award for Excellence from Illinois.

My go to dying nurse practitioner school! I read this book cover to cover multiple times throughout the program!

So far I am a week into this semester and have already utilized this book and love it! It's concise, clear, and well organized. Although I just started to use it, I know I already love it! I'm a FNP student.

This book was a required text for my FNP program. Out of the 8 books purchased, I found this to be the most helpful. The content is very thorough and is categorized by each illness with a treatment plan and a list of differential diagnoses. I highly recommend this book, it really helped my get through school!

A must have book for student NPs starting clinical and those in practice. I used it for my discussion and papers in school. A large book well worth carrying to clinical. It is easy to read the detailed information. Each diagnosis averages about 2 pages of information or even more along with current references and links.

I avoided buying a lot of our required textbooks during my NP education, but this book is a great buy! It is very concise, easy to read, and helpful during the learning process. I will certainly use it in the office as well.

Now I know everything! Ask me anything!

Excellent

good book
