## Customer Reviews

Pretty much a recap of the information seen in the series, and not even an in-depth one. A couple of errors (the picture listed for Shay is one of her brother Rax - seriously, did/have the editors even WATCHED this show?). Would have been much much better with some new custom artwork rather than stock images floating around since forever. The only things I found truly interesting were the random commentary from the paladins and confirmation on what Altean time measurements translate to on Earth. If you have to choose between this and the comics, pick the comics. At least

they introduce new things to the universe.

My brother pre-ordered this for me since he currently has prime and I do not. Anyways, I think the book is really high quality and it was only 5-7 bucks so I really can't complain. I think the person who got some bad quality pages probably was unlucky. I took some pictures of the same pages so you can compare them. Overall, I'm happy with my purchase. It has a lot of nice info and I think it's cute how the paladins added their own notes on the pages. There's also a quiz at the end :)

With Voltron as a global fandom, I'm glad the new chapter books are available on digital platform. For kids of all ages, this is a fun read to explore the new universe / Netflix Dreamworks version, Voltron Legendary Defender. It's a great time to be a Voltron fan!

The book itself was interesting (info only pertains to the first two seasons) however the quality of some of the pages was not good. There was lack of a sealant or whatever it is used to make pages shine on some of the character pages and the paper was rough and discolored in those areas. In other areas there were sticky specks on the pages that could be scratched off. In the photo of the yellow lion pages you can see the difference between the discolored page and the normal page.

Smaller than I was expecting, but it doesn't take away from the product! The information is great content for fans who want more series lore to chew on, and you can feel a lot of the personality of the characters through the information provided inside the book. I'm so happy with my purchase! I knew I had to have it the minute I saw it go up for pre-order! If you're a huge fan of VLD, it's a must-buy!

daughter loves it

I haven't gotten this book yet but I did order it, and I've noticed that people have been complaining about the info and all that stuff, dude it's a 7\$ book don't complain if you paid 20\$ then yes complain but really just be happy you have it

The book arrived a little nicked along the bottom edges, but the inside content looks perfectly fine!
