Customer Reviews

This is such a good read. A lot of romances give you unrealistic expectations, and sometimes I feel

like that makes relationships in real life harder - but something about this one was different - to me it has just the right balance. One of the main characters is a 'hot' firefighter, but his relationship with the other main character was not unrealistic to me, nor was his personality. This was a book that left me feeling good and gives makes me feel more positive about romance! This is a clean, feel-good, quick read and I highly recommend it!

Romance, cleanThis was a fun read for me. That being said, I felt more character from the H than the h. The h, just didn't resonate with me personally. Still, cute attraction, genuine, honest characters for the main characters, fun setting, and of course the handsome, hunk hero made a fun read. Definitely more of a light read for me as a reader, but still fun. Love how capable Jake was, Lacey was a bit of a mess, but still sweet for him as a love interest. She just overall wasn't my personal favorite of a character. Her past was her weak spot, and she was still struggling to come into her own as a person. Jake made this read for me. Still fun read.

I loved this story. Jake is such a strong hero. He likes to help people. Lacey is timid and insecure because of her ex boyfriend. She keeps hearing him in her head and it feeds her insecurities. She has a difficult time trusting Jake. I think alot of us do tend to run things thru our minds over and over again and it sometimes keeps us from moving forward in life. I enjoyed this book and can't wait to read the rest of the series.

This was such a sweet story! Lacey is a sweetheart. She is hesitant and insecure thanks to her horrible ex and the way he treated her. She has a hard time opening her heart and trusting. Jake is definitely the guy to help her trust again. He is kind, giving, hard working and a total gentleman. I really enjoyed their story!

This is a good read about Lacey Porter who had boyfriend that told her she could not draw her art that she loved. He also told her she was flawed and he was thiny one who would ever love her. Jake Davis had a girlfriend who tried to control everything he did. They are both free from their involvement and they meet when Lacey runs out if gas. You will enjoy the read.

This book makes a "romance" book more believeable. It makes you feel like it something that can actually happen in everyday life, rather than some fantasy people conjour up. Because, you know, sexy billionaires ALWAYS fall in love with their secretaries. This book is opposite thag and it makes

for an enjoyable read.

When you've been burned in the past (so to speak), sometimes it's hard to move on. This is a very sweet story about the process of moving on. Fun, sweet and clean and you can't go wrong with a good looking fireman!

I usually really like this author's work but this book just didn't have the flow her books usually do. The characters were endearing and the storyline was ok.
