Beyond Ecstasy (Beyond, Book 8)

Synopsis

The eighth (and next-to-last) book in the bestselling BEYOND series...The O'Kanes have a reputation for working hard and playing harder--except for Hawk. He joined the gang with one goal: to ensure his family's survival through the impending war with Eden. It's been years since he had the luxury of wanting anything for himself. Now, he wants Jeni. From the first moment he saw her, he's been obsessed with making her his. Not for a night--forever. Jeni's been lusting after the former smuggler for months, but he keeps shutting her down. She's almost given up on getting him in her bed when he offers her the last thing she ever expected--a collar. Accepting it means belonging to him, body and soul. It's a reckless gamble, but Jeni can't resist the chance to slip under Hawk's armor. The only thing more shocking than the dark, dangerous pleasure they discover is how right it feels. But falling in love is even more reckless when forever is far from guaranteed. Because they aren't just at war, they're out of time--and every breath could be their last.

This felt rushed.. Loving the series but this one just didn't sit right. It had a ton of potential with him being older and the need was raw, but when the two of them came together he came across as a twelve year old with a man complex, and not in a good way. Scenarios started and you felt like you were in for a ride but then it fizzled out. It had the same story line of the others. want, get together, someone throws a tantrum, things go bad, someone gets saved, realises the errors of their ways then they get back together again. The men come across as all powerful, but in the bed they won't shut the heck up, asking questions like they are some sort of creeper. It hurt that this was not in line with the others. Writers must remember that when a reader reads one book, they then read the rest of the series, so the style in which the writer writes needs to change. I just hope after Ryder and Nessa the writers take on Ashwin..... THAT would be an awesome read.

I just finished reading Kit Rocha's *Beyond Ecstasy* and I am speechless. This doesn't happen often. I have been engrossed in this series since first reading of Noelle and Jasper. I feel in love with everyone involved but have been dreading coming to the point we are now. I cannot stand the thought of losing anyone of these people to war and yep I know they aren't real. *Beyond Ecstasy* begins very shortly after *Beyond Ruin* and picks up speed. It is moving faster and faster. The authors make you feel the terror and desperation, the sadness, and ultimately the hope. In this book we learn more about Hawk and Jeni. I have never met two people more right for each other yet so clueless how to get to the happy ending. Hawk is too busy taking care of everyone and taking on their mistakes while Jeni is scared and doesn't seem to know how to let go of needing to feel needed. Neither is perfect and both make decisions for the other and push beyond what is reasonable. But both have their hearts in the right place. Overall, I loved this book. It was at times very uncomfortable not because it was a bad book or not well written but because it made me look at something inside myself and made fundamental changes to me. Kit Rocha always provides well written beautiful novels that make you think and change you. This book is different in that war is here. The city has forced changes, become greedy, and have been fighting dirty. They are making so people cannot simply live. Hawk and Jeni's love will blow you away. I cannot wait for the final book in this series and for Sector 1's spin off although I hate to say goodbye to Sector 4.

Each and every book and novella and short story on the Beyond series rates 5 stars! This is a really wonderful love story of two very different people finding a common ground while their world erupts into chaos and pain...war has finally broke out between Eden and the sectors.Hawk wants a commitment from Jeni but she is unsure if she can choose that lifestyle. He is determined and pursues her until he gets her agreement. Still, many factors continue to challenge their relationship. Their love is tested while the war heats up bringing casualties of loved ones.O'Kanes bring all their skills to save their lifestyle and loved ones. They have had enough of Eden. Their fellow sector leaders join them. The time has come to kick Eden's hypocrites out of power.I enjoyed this story...through joys and sorrows. I think you will also.

The wait is finally over...but also starting. This was the 2nd to the last book in a series I love reading. The wait was so worth it. The characters are developed in a way that you feel everything they do and empathize with decisions made....or not made, depending on the situation. While I recommend this author and series to everyone I also add the disclaimer, if you are squeamish about unusual sexual exploits this series isn't for you, if you love to read about strong female AND male characters plus love fantastic sex then this series is for you. In this book not only did we get to see Jeni and Hawk we also were brought up to date on most of the characters from other books. The growth of everyone feels like reconnecting with old friends and grinning that they are doing so well.

The best one yet. If I had my way I would spend my days just re-reading this series in order to spend time with some of my favorite characters.War is hell and there have already been losses, but out of the fire comes a stronger bond and Hawk and Jeni prove that to us in this book.Although I have to ask what happen to the Councilman??? Tammy and Coop helped him too. And I worded that the best I could without giving away spoilers.It took all of my energy to not read this in one day. Damn being an adult !!! and those pesky responsibilities LOL. How I was able to pace myself I don't know, maybe it was the pending "reading-all-night-hangover" that saved me. Yes ! it's that good.

What do you get when you mix a pending war with characters finally giving each other a chance to find love? You get one hot, fast-paced romance while the world falls apart around them. Hawk is the ultimate in alpha males and he's made even more likeable when you see how attentive he is to Jeni's needs and how easily he admits he messed up when he screws up. The authors manage to

advance the background story and tell Jeni and Hawk's romance so well you become completely immersed in the story. I'm dying to know how the war ends and what happens to the O'Kanes. And I'm even happier to know that Nessa gets the last book. It needed to be Nessa's book. I can't wait to read the last book in this series.

Wow! I love how Kit Rocha develops these characters and stories' and this one was no exception. I had a book hangover b/c I did not want to put it down. I would love to be a fly on their wall to witness their creative process in creating Sector Four. The twists and turns are gripping. Jeni and Hawk...well, I can't even find a place to start about them w/o divulging to much...but holy heck! They are so good together.
