## Synopsis

Pope Benedict XVI has resigned as Pope, just like the authors predicted he would do in their 2012 best-seller *Petrus Romanus: The Final Pope Is Here*. Since then Tom Horn and Cris Putnam have been inundated with invitations from around the world to be interviewed on radio, television, and in print media. These included segments in The History Channel's "Countdown to Apocalypse," a special feature on Canada's largest Christian channel VisionTV titled "I Prophecy: The Apocalypse Series," invitations to Rome to discuss with Italian media their findings on René Thibaut (a Belgian Jesuit whose meticulous analysis of the Prophecy of the Popes predicted the arrival of Petrus Romanus in this era), and dozens more. But during a show on Omega Man Radio the author's disclosed an "extraterrestrial" connection between Petrus Romanus, the Vatican, and the Mount Graham Observatory, which rocketed that program into the #1 position in the world, illustrating to the authors that modern civilization is more than casually interested not only in the final pope, but in the connection between Rome and their secret work on extraterrestrial intelligence, astrobiology, and the intriguing preparations they are making for the arrival of an alien 'savior.' Thus, the new investigation began and quickly resulted in findings far more disturbing than the authors expected to find. NOW, FOR THE FIRST TIME, "EXO-VATICANA" REVEALS... Unveiled! The Vatican's secret plan for the arrival of an alien god Disclosed! Secret files in the Vatican library on the reality of the alien presence Found! The private document detailing the Vatican's position on the extraterrestrials Revealed! Project LUCIFER and the hidden quest for "Fallen Star" 2013! The year top astronomers say the alien world and its inhabitants will be divulged The Collins Elite, Occultism, and the covert breeding and hybridization program The incredible family secret that Tom Horn has kept concealed for decades! What top Government and Vatican Officials told the authors about the reality of UFOs, ETIs The Vatican's Top Astronomer agrees to and is interviewed by Horn & Putnam Nick Pope, Bruce Maccabee, Stanton Friedman, Jesse Marcel Jr. and others weigh in Back to Cydonia! The truth behind the face on Mars and artificial structures on other worlds In *Exo-Vaticana: Petrus Romanus, PROJECT LUCIFER, and the Vatican's astonishing exo-theological plan for the arrival of an alien savior*, internationally acclaimed investigative authors Thomas Horn and Cris Putnam break the greatest story of our time and expose the elitists and intellectuals who are planning to assimilate mankind under a coming 'savior,' one whom the prophet Daniel foresaw as "an alien god."

In *Exo-Vaticana*, internationally acclaimed authors Thomas Horn and Cris Putnam share their newest [investigative research](#) into what you can expect to unfold in the coming days, and, more importantly, what you can do to be prepared for the arrival of an alien savior and the kingdom of Antichrist.

I would recommend this book to anyone who is struggling with their spiritual faith versus their desires for the mental evolution of modern man. Bible scripture is written in such a cryptic way that many people find it difficult to interpret and understand. In addition; we have evolved to a state where we no longer feel the need to have an omnipotent God. We have become convinced that evolution is completely under our control while forgetting our created roots which originated from God. The one question that everyone needs to ask about Aliens is this: If they are another example of God's glorious creative powers; then why do they need to forcibly collect our DNA to procreate? All of God's created species on Earth can procreate within their own species. Why can't the Aliens? Read this book and pray for truth.

I purchased this as a gift for my mom, and I then borrowed it to read myself. *Exo-Vaticana* covers a broad range of topics, but mainly focuses on the theory of aliens, or something posing as aliens, being part of the end-time deception mentioned in prophecy in the Bible. Originally hearing the synopsis of the book, it seemed like something far-fetched at best, but after reading and having a better understanding of where authors Tom Horn and Cris Putnam are coming from, and the evidence they set forth, they lay the groundwork for a plausible explanation. It's not the easiest of

reads, especially when they begin talking on subjects like quantum physics and the like, however, I personally enjoyed reading something that was rather difficult and outside of my normal comfort zone to be challenged.

An eye opener for the ages to see much of what is going on behind the scenes. Many people are not aware of the things taking place in this world and may not be asking the right questions as it is, but this book is riveting in its analysis. Ignorance is not bliss, so pick it up and see for yourself.

Every so-called Christian living in this so-called Christian nation should have this book right next to their bible and reference books. You won't get this truth in a 501c3 church. "My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children." Hosea 4:6 King James Version Exo-Vaticana : Petrus Romanus, Project L.U.C.I.F.E.R. And the Vatican's Astonishing Plan for the Arrival of an Alien Savior

Bits of information that have managed to trickle through time and space. These authors have collected, organized, collated these bits and pieces and crafted a novel for each reader to make their own determination on.

Great book. I am starting to get my lukewarm friends these books. Even if they don't want to read them, they will want to know what is happening soon and open the book. And I heard another voice from heaven, saying, Come out of her, my people, that ye be not partakers of her sins, and that ye receive not of her plagues. Revelation 18:4

This book provides solid scholarly work from various theological, scientific, and religious disciplines, always trying to be fair and even handed with opinions and points of view. So, if you're not up to speed on the types of topics describe in the book's contents, this book does a good job in helping you to get your arms around them. This book provides a strong apologetic for traditional Christian, biblical thought and contrasts this thought with trends happening within the Catholic Church and the theologies that it believes it is embracing. Now the goal of this book is to make the case that the ET, UFO, and abduction phenomenon have demonic origins and substance - with the intent of achieving the advent of the Antichrist's reign. All the content of this book is to provide the evidence for reaching this conclusion. Does it succeed? Well, maybe. In order to make the bridge of how this

phenomenon could take place they use biblical evidence, which is not, what is called scientifically based. That in itself is not bad, considering that what they are suggesting is the bridge between the spiritual and physical realms. Their conclusion is that the mechanism would be the human physical body, genetically changed in order for the Antichrist to come through to the physical. And there their case rests. My criticism is that I would have liked to have seen arguments that included DMT the spirit molecule, quantum mechanics dealing with experiments and the observer, and last but not least "Currency" or money and its effect on reality. Since this book makes a major effort to give complete and thorough arguments for the evidence supporting the views of the various experts, I find that it falls short, and does not provide other evidence giving more or less weight to its final conclusion. I do recommend this book.
