# The Last Dance: Encountering Death And Dying

## Synopsis

The best-selling textbook in its field, *The Last Dance* offers an interdisciplinary approach to the study of death and dying. Integrating the experiential, scholarly, social, individual, emotional, and intellectual dimensions of death and dying, this acclaimed text provides solid grounding in theory and research, as well as practical application to students' lives. The ninth edition has been updated to offer cutting-edge and comprehensive coverage of death studies.

## Customer Reviews

This text book is so well written that I could read it for fun! I had to read it for a college class, but I looked forward to reading it because it wasn't too "textbooky". It covers a wide range of topics from death in the lives of children to suicide to hospice care. It even covers the stuff that is too "taboo" for some people and questions that most people wouldn't want to ask. Great read and I will keep this book to refer to during my lifetime.

Definitely getting outdated and could use an update! This book is great if you can get it cheap, since it has the basic concepts that an introduction to bereavement should have. However, things should be updated in the 21st century to include technology, war, etc that most students have come into contact today.

well written, easy to read, used for a class but was enjoyable nonetheless.

This book is a great resource. I have recommended it to colleagues and will be resourcing it for my education instruction to new nurses. I enjoyed reading it very much. Easy read.

This book talks about death in ways most of us never even give thought to. It is written well, easy to understand, it has a nice flow to it. Hardly rely like I was reading a textbook at all

Rented for my Psychosocial Aspects of Death and Dying class. Great, informative text and never dry or boring. Engages the reader well despite the sometimes morbid subject matter.

Loved this book. I am a nursing student planning on going into hospice care. This book opened my eyes to the different aspects of death.

Excellent exploration on death and death practices world wide. The author's clear writing and thorough explanation made this one of my favorite books this semester.
