Gray Wolf Security: The Complete 5 Books Series

Synopsis

Enjoy all 5 PRIVATE SECURITY ROMANCE books. No cliffhangers. More than 1,000 pages :)

DONOVAN He killed my brother. He didn't wield the rock that destroyed a promising life, the life of a future doctor, but he killed him just the same. He should have been there that night, should have protected Joshua from the wrath of bullies that he'd pulled down on us all. But he wasn't. And Joshua died. Now my dad expects me to sit back and let this man protect me? Was he insane? I don't care how wonderful Gray Wolf Security is. I wasn't about to give up my freedom, my privacy, and allow Donovan Pritchard to follow me around for the unforeseeable future.

DAVID My life ended the night my father won a place in the US Congress. Not because he won the election, but because he died when I lost control of the car he, my mother, and I were riding in. My parents both died and I was left paralyzed from the upper thighs down. There's an operation that could fix my legs, but maybe I don't deserve a second chance. After all, my parents didn't get one. But then a woman walks into my life—it's always a woman, right? We're both broken, but maybe together we can find a way to fix what no longer works.

JOSS She doesn't talk. How the hell am I supposed to trust the life of my child to a woman who won't talk? It's not a physical thing, it's emotional. I'm paying thousands of dollars to Gray Wolf Security to protect my child from potential kidnappers, and they give me this emotionally broken woman who won't speak. Not only that, but she's so tiny she couldn't hurt a fly. Well, okay, so she knocked me to the ground. But I'm not a drug lord with a loaded pistol pointed at an innocent child. Just because she's beautiful and she has these curves that I can't seem to get out of my mind doesn't mean that I'm okay with this situation.

KIRKLAND Hypocrisy drives me up a wall, yet I'm probably the biggest hypocrite to ever live. I own one of the leading pornography websites in the country, maybe even the world. But I grew up in a conservative, religious household and getting my mom's voice out of the back of my head is almost impossible. Until I lay eyes on Kirkland Parish. An operative for Gray Wolf Security, Kirkland is supposed to be my guardian, my shield between my quiet world and the threats that have promised my impending death.

ASH Three years ago, the love of my life disappeared. I never believed she was dead even though the government tried to convince me she was. I would never give up on her no matter what anyone told me. But I did get a little distracted by Mina Kaufman, a stranger who gave birth in the back of my SUV, delivering a perfect baby boy into my hands. How was I supposed to turn my back on them? Mina and her son brought me out of the limbo my life had descended into. And how was I supposed to know that she

was lying tome?

Customer Reviews

Great series. Just finished book 2. Written well with attention to detail. The grey wolf security was created by a green beret when he separated from the army. He needed something to do after the military. Comrades in arms joined his group. Now we learn about each one with their own story. Each person is wounded either physically or emotionally and it's wonderful to see how the h and h in each story help each other find themselves again and heal and move on. The guys are hot and the sex is sizzling. The stories are written from dual perspectives the author does a great job going between the two that she made it seem seamless. These are stand alone book but a story thread continues through each book. It would be better to start with the first book because there are things that get resolved in successive books that doesn't impact the enjoyment of the characters but does give the sense of completion. Now on to the next book!

I wasn't sure what to expect as this is the first book I have read by this author. I'm thrilled to say how awesome this series is. I was hooked from the start and read all the books in a matter of three days. I couldn't seem to put it down until I was half asleep and had to rest. As soon as I had a min. I was back to finish it. I will be checking out other books by this author.

This series was perfect for me. I love romance mixed with danger. Each book tells a story of one of a group of friends who all work for a security company. They all have secrets from tragic pasts. Each book keeps the other characters alive and well so you don't have to say goodbye to any of them. I knew from book one that I wanted to get to Ash's story (book 5, of course) and I have to say, it didn't go where I thought it would take me! Not a bad thing, just totally unexpected! Thoroughly enjoyable series!

Awesome read. Loved the characters in each book and each book pulled all characters into it. It was an awesome series. There was drama and love and steamy sex and pain and hurt. Bullets flying, stalkers, bombs, never knew who was coming at you. I started the box set and read in three days could not put it down.

The characters were well thought out. You really got to know them. Each of their stories showed how a person can go through their own personal hell and come out the other side better for it. How family is never just about blood relation.

DonovanKate Thompson blamed Donovan Pritchard for her brother's death even though she knew he wasn't responsible. When she witnessed a murder, her father hired Gray Wolf Security to protect her. The one man she didn't want to ever see again was the one who would be protecting her. As they spend ample time together, they learned to reconnect and trust each other again. This book was suspenseful, second chance love and fast-paced. David David Grayson was Ashford Grayson's brother, they both had chosen great careers paths and their parents couldn't have been happier. The night their father was elected to Congress, there was an accident that killed their parents and left David paralyzed from his upper thighs down. There was a possibility of David regaining the use of his legs but he refused to undergo the procedure because he felt guilty about his parents' deaths. He was suffering from survivor's remorse. David worked with the FBI before his accident then he went to work with Ash and the rest of the team at Gray Wolf Security. There was some trouble at the last job so David was working to keep them all safe from hackers. He loved his life then walked in a

woman who turned his world upside down. She was once a notorious hacker, now she was a kicka** CEO of one of the hottest social media corporations. Ricki Dennison came from a poor family, she made myself a promise to never be dependent on anyone. She became famous and it changed her, she regretted the way she treated an old. David and Ricki were two broken souls who completed each other. Joss Joselyn Grant Hernandez aka Joss was a petite firecracker that many underestimated. She lost her husband and eighteen-months old son in a car accident, she never spoke after their demises but she would protect her clients with her life. Carrington Matthews ran a shipping company, he had been receiving threatening emails regarding his daughter, McKelty's safety. He hired a security firm but they couldn't handle the job so he opted to hire the Gray Wolf Security team instead. When Joss was assigned Carrington's case, she didn't want to take cause it hit to close to home for her yet she did it anyways cause she could never disappoint Ash. Carrington wanted to know more about Joss, they both suffered losses and it was the first they felt any kind of attraction towards the opposite sex in years. As Joss stayed with Carrington and his eight years old daughter, they became close. They got the culprit even though some of the Gray Wolf Security members got injured. Kirkland Kirkland Parish was a womanizer, he could charm a nun out of a church so when he was assigned to protect, he was also warned to keep his hands to himself. When he met Mabel Watson, Kirkland realized how terrible wrong his assumptions were about her. Mabel Watson was a friend of Ricki's (David Grayson's fiancée). She was also was the CEO of an adult site that offered everything from porn videos to X-rated comic strips to the sale of sex toys. She came from a religious family so it was like her adult life took a 180 turn. Despite owning one of the biggest adult sites, there's something no one knew about Mabel. She was a virgin. Kirkland loved so deeply yet he didn't believe in love. It all had to do with how much he saw his loved ones suffer in the name of love. Mabel was able to do what no other was, she got him to share his burden with her. She tamed the beast. Ashford Ashford Grayson started the security firm, Gray Wolf Security so he and four of his fellow soldiers could have a purpose after they left the military. He and the rest of the team were more than co-workers, they were family. Ashford still had feeling for his ex-fiancée Alexi, he knew where she was and he found out that she had another life. One she didn't want to have with him so faked her death, when all was said and done he let go of the illusion he had of her completely. Wilhelmina Kaufman aka "Mina" needed protection so she sought out Ashford Grayson. Being pregnant and on the verge of giving birth, she didn't know how to tell the man that help her and her new baby son that she knew who was causing them trouble. When the truth came out about who was behind the attacks against Ash's operatives, Mina found herself at the receiving end of an angry and hurt Ash. She wanted to make things right so she

walked right back into the hell she ran away from. This great book set is the first of Glenna Sinclair's work I have had the pleasure of reading. There were some moments when I wanted to shake some sense into some of the characters. But overall the story lines were well paced. The GRAY WOLF SECURITY team was a FAMILY that was loyal, trust each other in ways they could never trust anyone else. They looked out for one another, they even called each other out on their BS. I recommend this box set.
