This book is required text for the Penn Foster Online University course in Veterinary Assistant so I bought it for that. But it's also a very good book with website interaction.

I just received my textbook today & it's exactly the book I needed (required material) for the classes I'm taking. It's about 150 pages of text, diagrams/pictures, & definitions. My only complaint is that it appears to have been somewhat damaged during shipping, having arrived with a small tear or two on the cover. Other than that, great textbook!

a good textbook for someone planning to study to be a vet. assistant. Recommend.

cool

This book had all the info I needed for my classes and it was so easy to understand

I was very happy with the book.

Excellent

The book is exactly what I needed. Delivery was a little slower than expected but it arrived well-boxed.
