## Customer Reviews

So I picked up this series at the tail end. I decided I liked it and bought the rest. This way I could read it from start to finish. This one is about Lobo. Having been forced off the snow covered mountain Frozo by an avalanche. One of the wolves Charles took over and lied to the rest of the pack abandoning Lobo to die. This tells the story of that and gives a good moral. A little unpolished there's a few spelling errors here and there but nothing that breaks the flow too much. It's not like there's tons of them or anything. The story is solid as well and the characters in the short time you still manage to become invested in. This one I also recommend due the fact that it could easily be taken as a single book. There's no cliff hangers it wraps up nicely with an opening for more adventures but nothing pressing.

Loved this action packed book. I highly recommend this book taken from Lobo's (alpha wolf) point of view. I couldn't put it down. There are twists and turns at every corner as Lobo's life is changed. Even though I'm not really into Minecraft. I really enjoyed this book and hope for more to come.

Great story! Lobo must find his pack after the avalanche separated him. I loved the "in game" pics they fit the story perfectly. Plenty of Minecraft fun and characters along the way. If you are a fan of Minecraft this is a great book to get. My son loves it and so do I. Every page has something going on and plenty of action to keep your interest. Highly recommended for any fan of Minecraft.

This is a really well thought out adventure in the Minecraft world! For someone that loved the game, to see the adventures personified in a great adventure takes the game to a whole new level. To be a lone wolf, or an alpha wolf? I can't wait to read the next book to see how the story unfolds. Very clean writing and a must read for those that love the Minecraft world!

Great book. It's exciting journey about the wolves of Minecraft. The book constantly gives you twist and turns that you're not expecting. The story of the alpha male wolf is truly compelling how he leads the other wolf no matter what. The disagreements the alpha male still makes leadership a priority. The the end is truly a plot twist that you never expected to see.

I could not put the book down from start to finish. This story was so action packed, and the

illustration was great. I will be reading more from Christopher Craft. I love books that grab you from the start.

I was engaged from the beginning and the author kept my attention, waiting for what was going to happen next. I am a new fan for sure and can't wait for the next chapter. This book is well written and the author is definitely talented. It made for a great Sunday read.

It was near perfect for me, considering that it was not actually an official mine craft book, I hope more come out
