Tango: The Rhythm And Movement Of Buenos Aires (Book & 4-CD Set)

Synopsis

The Tango. It is a dance and a music of smoldering intimacy, sensuality, sadness, and melancholy. It is the resonance of feelings and movement: body contact between a man and a woman and a rhythm that has captivated people all over the world. The moving photography in this stunning book and CD collection captures the rhythms, beats, and sizzling encounters so typical for this internationally popular music. The music on the 4 CDs captures the atmosphere as it can be found in the clubs and restaurants in Buenos Aires. In addition, Astor Piazzolla, presented here live, leads Tango into the great concert halls.

Jim Zimmermann was born in Offenbach am Main, Germany, in 1948 and has lived since 1969 in Stuttgart. He gave up his profession as an architect in favor of his passion for photography. Every image in which he captures live, authentic life and feeling makes amends for his existential insecurity. Since 1987 he has been observing couples dancing the Argentinean tango, including performers at the best international level. He believes that to photograph the tango well, it is necessary to love it and dance it oneself. He takes the same approach to the subjects of his portraits, the models he uses for his body portraits, musicians, and actors. A good photograph is like a poem that one wants to read again.

The book is a nice size to display on the coffee table. The selection of photographs are very nice

and portray the the art of Tango well. I was a little disappointed with the quality of some. It was fantastic to find that the book comes with 4 great music cd's! I'd buy it again!
