Easy to read, accurate, maps are easy to view. I love how each trail has it's own page with a easy to read map, rating, footnotes, description and a few pictures. Also included-basic hiking information, weather considerations, moose behavior and provincial websites to plan your adventures. There is so much more-so get a copy and start planning now. --HikerGirl52

Katie Broadhurst and Alexandra Fortin are tour guides in western Newfoundland. In this guide to the region's greatest hikes, they share their love of adventure and appreciation for nature with readers.

This book was very helpful in planning what hikes to do when visiting Newfoundland. There's not a lot of detail on each hike, but all the trails were so clearly marked that a lot of detail isn't needed.

One mild warning -- the Gros Morne trail map was a bit impressionistic. It is a path with a loop, but

the actual path and loop are different relative sizes than is shown on the map.

Good for trip planning. Nice photos.

Best book for this region. And trust me, we searched everywhere. It was so good that we bought the Eastern Newfoundland book too.
