## Customer Reviews

I bought this due to the wonderful reviews. Bologna! This book STINKS! There are LOTS of downright errors! There is NO author mentioned, to whom I could address my serious concerns.

Lindquist Publishing is the named publishing entity. Also, some grammar parts are correct, BUT way too detailed for a beginner with little or no explanation. The plural you form (vosotros) is WRONG in many cases and if this were a book aimed specifically at Latin America I could maybe justify the error. HOWEVER, the cover picture is from Güell Park in Barcelona, SPAIN! Also, for beginners, supposedly travelers, one would expect that an important chunk of info would be food and menu vocabulary since all tourists need to eat and often find themselves having to communicate with non-English speakers. There is precious little vocabulary to use in a restaurant setting. Bought this for a birthday gift BUT it is so bad that I am seriously considering trying to come up with something else. I have an MA in Spanish and taught it for 34 years. I would NEVER let my students get their info from such a flawed source.

I bought this for my husband so that he could communicate with my Latin family. As a native Spanish speaker, this book is good. It has a couple of errors: both on spelling and grammar. . So if you have a native speaker to correct those mistakes for you, you're golden. It also uses the Spanish (from Spain) voice "Vosotros", which we don't use in Latin America. The lesson plan is great though, so that's the trade off. All in all, good book, but should not be your only resource.

For beginners this book serves as a helpful guide in explaining the difficult things in Spanish language. I have been learning Spanish language for quite sometime and this book gave me a chance to know more. I learned that the word ending rule is not always reliable. It simply does not apply to all nouns. If you want to learn Spanish quickly then you should not miss a book like this because it can give you an easy way to climb the ladder that leads to success in learning this language.

Muy buen libro para leer! I am so excited to finish the content of this book since my family and I are going to Spain for a vacation. I am excited to learn everything that is in the content of the book. Why is it interesting? It is very well organized and easy to understand. Very comprehensive and practical to use. You will learn how to use the language in the most convenient way especially for those tourist that will visit the place. It will teach you how to order food, how to ask directions and etc. I can't wait to finish all the pages.

This attractive book is definitely for people who already speak and comprehend the Spanish language. It is easy to follow and easy to read. It is the perfect book to add to your library. After

studying this book, right away you will feel comfortable using what you have learned. The book is organized in a way to make learning Spanish easy and fun.

I'm the type of person who needs to know exactly how sentences are put together before trying to speak a language, pronunciation guides, extensive vocabulary lists, and interactive exercises. Packed with dialogue examples and self-tests. This book will have you speaking and understanding Spanish in no time. Absolutely amazing!

Good product

Si espanlo
