## Customer Reviews

This is a decent book for the price. It does have "activities" so if you're not a fan of those (like me) you might be a little disappointed. But for every two pages of activities there's four pages of colourable scenes from the movie which is what I was after. The paper is incredibly thin, as most books for children are, and is a smooth, greyish off-white. It should take well to crayons and pencils, but would not advise other mediums. All in all if you're an adult or child fan of the movie this is a good book, and the cover is a nice and firm coated cardstock to prevent damage to the inner pages.

Got this for my two granddaughters. For their birthday in December. One had her birthday on December 5 and the other had it on December 8 and I but gel pens to go with it and they at they really loved it

I was a little annoyed at first, since I ordered both books, but this one has a lot more pages. Unlike one of the other reviewers, this did not come with any stickers. As a color book, it is nice, I actually got one for myself for an upcoming car trip. For the price, it was worth it, lots of pages.

these were all purchased for a 3 yr old and 6 yr old grandchild. They enjoy the mailman's stop and spend the afternoon with the books.

Nice heavy pages
