Customer Reviews

This map was really valuable on my trip to Glacier NP. It is very small, which makes it handier, but it could be much larger. It would be great if it was this size but was only half montana one side and half montana on the other side. Wyoming should have its own map seperate that you could get instead. Either way it was great to have as service is very sparse in a lot of Montana. Lots of towns and detail considering the small size. I am an old soul who really likes to use a map, but it was pretty special seeing my millenial girlfriend with a flashlight and map out at night navigating by landmarks, street names, and mile markers while I drove. Would buy again.

Only three stars because I expected a way more detailed map. I.e.you have the whole State

Wyoming on two pages size A4. Wyoming is nearly 3/4 the size of whole Germany. In Germany you get a road Atlas of 100 pages and more. I did not expect that at all because the population is much smaller in W. but I expected the map a little bit more detailed. There should be also a scale at the map or at least it should be mentioned in the description of the map. The scale of Rand McNally Wyoming map is 1:2,04 million or 1cm = 20,4km (1 inch = 32,3 miles) compared to a detailed german map 1:0,2 million or 1cm = 2km. With such an information you know much better what you will get in the end. Rand McNally maps getting always very good ratings. That's why I hope the map size is good enough for the big size of the state?! The quality of the map looks really good to me!

What can I say? It's a well made laminated map. It works. I'll buy more for all my camping bags and vehicles. I liked the old originals better but this will do.

I would have preferred a single plastic covered map of just Montana.

It is so handy to have. Paper maps are getting so difficult to find now that everyone THINKS that everyone is using online maps or GPS. But we are usually up in the mountains when we suddenly have questions about a little side road or what county we are in and real maps are what we want! We recently got back from a trip to California where we could NOT find paper maps of the state anywhere - so my new advice is order your maps before you leave home.

Real Easy to read

We had never been to Montana, but the map made it easy to locate my brother-in-law. We also visited other interesting places.

This map is worthless & shouldn't even be sold. I was looking for a regular sized road map, seems to be a difficult item to find anymore. This one is only 17 inches by 18 inches with about 8 inches by ten inches of actual map of the states!
