Customer Reviews

Seller didn't ship quickly. Product is as stated. However, I needed the product quickly, which it didn't do. The product arrived after I needed it for a performance, which actually made it useless.

This songbook is great; the musical arrangements are excellent (though I play mostly by ear, so I only follow the music somewhat). My favorite part is that there are pre-made chord charts for all of the songs at the back of the book. As a music director for a church, that saved me a lot of time and effort. Definitely a worthwhile purchase.

It's in Piano/Vocal/Chord format which is keyboardist friendly. The vocal harmonies are included with the melodies eliminating harmony guesswork. No guitar tabs, but chords are offered. There's also simple lyric and chords pages in the back of the book that make seeing where possible strummy acoustic guitar parts can land, a trademark Jars Of Clay method. :)

While not everyone likes all these arrangements of standard hymns, I think they are very well done and still very spiritual. I use this book to play along with the record and everything is correct, chord changes, etc.

I've long enjoyed this album of contemporized traditional hymns. Now I will be able to enjoy the accompaniment as well. Quick delivery and all just as I ordered. Thanks!
