The introductions and explanations are charming, and that incredible shot of the Lacquered Roast Chicken looks like exactly what I want to eat right now. the huge photo spreads detailing exactly which brands of Asian ingredients the authors favor--sure to save this intrepid shopper many hours of scrutinizing different bottles of cooking wine, preserved black beans and jars of spicy chili crisp in the aisles of her local Chinese supermarket.

LUCKY PEACH uses food as a filter to tell stories about people, places, traditions, flavors, shared experiences, and cultural identities. Smart, thoughtful writing and influential design have made Lucky Peach's quarterly magazine one of the world's most trusted and fiercely loved culinary resources. In 2015, Lucky Peach expanded its mission with an award-winning website, cookbooks, and live events. PETER MEEHAN is the editor and cofounder of Lucky Peach. A former columnist for the New York Times, he is also the coauthor of numerous cookbooks including the New York Times bestselling Momofuku and The Frankies Spuntino Kitchen

Companion and Cooking Manual. He lives in New York.

Just what I'd hoped this book would be - easy! I love my Asian cookbooks but too often they involve deep frying or velveting. No deep frying in this one. The recipes are very doable and the layout of the book is one of the clearest I've seen. The pantry is great with clear pictures of the brands they are using. Do get the Spicy Chili crisp - it's great in so many things. I'm off to find that Sun brand ramen for the Ramen pesto and the HonDashi. Okay, unconventional ---some of the recipes are but, this is Lucky Peach. On the other hand I'm glad to see a classic recipe for Hainan Chicken Rice that doesn't overcook the chicken...great recipe. At the other end of the spectrum is Mall chicken without the deep frying. Going to try that one instead of putting General tso's sauce on Popeye's nuggets. Definitely looking forward to the Miso Claypot chicken made entirely in the rice cooker although, there are directions for a dutch oven. I've cobbled some of their sauces from various websites over the years and they are wonderful. It's great to have them all in one chapter. I like the treatment of the vegetables like an acorn, or kabocha that can be roasted and the miso glazed eggplant, also involved no frying but baking instead. easy. I'm looking forward to making the ragu-all three of them. I had already earmarked a very similar recipe of Sichuanese Chopped Celery and beef in Fuchsia Dunlop's Every Grain of Rice, so I was happy to find this adaption. I broke my own rules as I have a self ban on buying any more cookbooks (I have more than B&N). but, I couldn't help myself with this and I'm very happy I couldn't resist. Its worth every penny. I will update this as I use the recipes.

I'm in love. This book is the bomb! I collect recipe books--it's a disease. Especially when you consider that I can almost never follow a recipe. I don't know what it is about writing recipes, people think they need to be complex and multi-step before they're worth the money. So I use them "for inspiration" and then do whatever I want. This one, I will probably follow all the recipes. They're easy, they're not fiddly, and they are bursting with flavor. I love the pictorial depictions of the ingredients. I did end up buying a few things that my very-well stocked pantry didn't have, but I could easily have chosen simpler recipes. Tonight, I made Sichuan pork ragu and dry fried green beans. Amazing! I voluntold (when you tell your kid he has to volunteer to help you) my 16-year old son to gather the ingredients for the sauces for both while I got to cooking. It made it a breeze and dinner came together really fast. I think this book is good if: 1. You're willing to invest in a few ingredients you might not have 2. You want Asian recipes rather than those from one country (eg Korean or Thai

only)3. You want meaty, chicken-y, rich umami flavored foods. There are a few veggie recipes but the starches and meats shine.4. If you are on a low carb diet, you could ignore the rice and noodle sections and make the other things. The intense flavors that I see in the recipes will likely make the dishes great to eat on their own.Update: The next day I made cumin lamb and the garlic shrimp with Sriracha. Very flavorful and the shrimp came together so quickly. My family is enjoying my enjoyment of this book :)Definitely a great cookbook with easy, authentic tasting/sounding recipes

I adore this book. The back promises that it will be 100% inauthentic. Zero pretense. Just some really easy, fun, tasty food. There are all kinds of recipes in here that assume you're on the impatient side, like a recipe for Soy Sauce Kimchi that's ready in an hour, and you don't even ferment. As a very nice touch, there's a section at the beginning where he shows photos of all the ingredients you'll be looking for. Great book!Pictured below:1) Mall Chicken - p 192. This is sticky, oozy, sweet, savory awesomeness. It smells flippin' fantastic, too.2) Bok Choy with Oyster Sauce - p 165. I was shocked by how much flavor he's able to get out of 4 ingredients, and zero effort. Awesome.3) Roasted Squash with Red Glaze - p 168. Savory and sweet roasty goodness.4) Kung Pao Shrimp - p 238. Delicious! He's got the heat way dialed down with the Sichuan peppercorns and little red chiles. My grocery store didn't carry Chinkiang vinegar, but does. :) 5) Gold Plum Chinkiang Vinegar 18.6 fl oz5) Dollar Dumplings - p 60 and Dumpling Dipping Sauce - p 61. These are yummy, and his method is an easy one. The kids adored them! This version is pork with ginger and scallions. He also has got pork and cabbage, and all vegetable versions, too.6) Silken Tofu Snack - p 36. This was great and took under 5 minutes to throw together.

I've made 4 recipes out of here now - the okonomiyaki, the rotisserie chicken ramen, the chicken adobo, and one of the ginger scallion sauces. Each was on point, easy, and delicious. I cook a fair bit in the Asian palette so we already had 95% of the suggested pantry items, which helped, and the illustrated guide to beginner, intermediate, and advanced items was a cool idea.The okonomiyaki was surprisingly easy and was astoundingly similar to ones I've had in Japan - the key is the sauces. The chicken adobo with the scallion sauce was made this past Sunday and smelled great while cooking and made leftovers that resulted in my husband getting threats if he took the buckets to work instead of saving them for me. I've flagged a few more to try sooner rather than later as many will be manageable on a work night with small children, and leftovers are always a bonus.I've been delighted with the purchase.

Oh my gosh! I love this book. The cucumber recipe and the shrimp and broccoli are a couple of my favorites. I say the food tastes better than many Chinese restaurants I have been too. Just wonderful
