# The Underdome Guide To Energy Reform

## Synopsis

The Underdome Guide to Energy Reform is the first book to map the political implications of energy management in architecture. It reenvision collective priorities in the face of climate change, at scales ranging from the microelectronic to macroregional. Organized into sections covering power, territory, lifestyle, and risk, Underdome catalogs conflicts and affiliations among energy agendas to inform public action and function as a "voter guide." Original illustrations reconsider architecture's symbolic and infrastructural connections to energy politics. Probing essays by urban designer Georgeen Theodore and architectural historians Reinhold Martin, Jonathan Massey, and Michael Osman explore new histories and forms of practice. Transcripts from the Underdome Sessions held at Columbia University Studio-X NYC – which brought together panels of experts in design, policy, economics, and history to attack the climate crisis from multiple angles – create a larger dialogue. Underdome is a call to action, urging citizens and designers to questions how political ecology can reshape architectural objects and objectives.

## Book Information

Paperback: 192 pages

Publisher: Princeton Architectural Press (November 3, 2015)

Language: English

ISBN-10: 1616893974

ISBN-13: 978-1616893972

Product Dimensions: 6 x 0.6 x 8.2 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #1,082,218 in Books (See Top 100 in Books) #108 in Books > Crafts,

## Customer Reviews

"Billed as 'the first book to map the political implications of energy management in architecture,' The Underdome Guide to Energy Reform (Princeton Architectural Press) is a complex yet visually rich guide to tactics that can and are making buildings and cities more sustainable." - A Daily Dose of Architecture "For practicing architects or planners, The Underdome Guide to Energy Reform promises to be a useful, perhaps indispensable, tool." "In a world that privileges laws and

econometrics, The Underdome Guide to Energy Reform offers deceptively simple and largely underexploited spatial tools for leveraging environmental change. This book is a bright diagram for a new habit of mind about design." -Keller Easterling, author, Extrastatecraft: the Power of Infrastructure Space  
"The Underdome is a tremendous achievement. The very idea of drawing policy or cultural temperament is really valid and noteworthy, a brand new filter for critical thinking." - eOculus  
"The Underdome Guide to Energy Reform provokes thinking about design as a form of political action." - Architect Magazine

Janette Kim was adjunct assistant professor at the Columbia University GSAPP from 2005 to 2015, where she codirected the Urban Landscape Lab and the Applied Research Practices in Architecture (ARPA) initiative. Kim is currently assistant professor at Syracuse University, principal of research and design practice All of the Above, and editor and founder of ARPA Journal. Erik Carver is an architectural historian in the doctoral program at the Columbia University GSAPP, focusing on conjunctions of architecture, politics, and technology in the twentieth century. Carver's work has been published in Architect, Volume, and Journal of Architecture Education

Great book, awesome illustrations
