Customer Reviews

Item was described as posted and it was still new fast shipping

All books were in good condition and met my expectations based on the description provided by the seller. As a text, the book is clear and concise in its presentation of material and a good choice for students that may be overwhelmed with traditional texts.

Came a little worn but pages were fine.

I was not expecting a book on physics

Excellent book.It really works really good for my students.The book is in excellent conditions and

very easy to understand.

Really a great book to help at home with homework and keep the kids with the basics to make the advance math problems easier

Fast shipping, item as described

Looks like it will be a good book to help prepare for the GED.
