Customer Reviews

I read this book twice.....once for me and the second time to my 8 year daughter. It's difficult to say which one of us enjoyed the story the most :) Even though it is a book aimed at children, I thoroughly enjoyed it. My daughter keeps asking when there are going to be more 'cat' stories for us to read. It is a thoroughly refreshing read. I loved the fact that it got my daughter asking questions about the 'ice age' so she also learnt as we read.

Most children dream of being strong and powerful, of being heroes in the world controlled by adults, and in this story, the protagonist, a young boy named Aric, makes this dream come true. This tale is set in the harsh living conditions of the Ice Age, and Aric's tribe is plagued with serious problems that endanger the lives of his family and everybody else. The adults try to solve these problems themselves, shielding Aric and other kids from them. But Aric does not want to wait. Inspired and assisted by a loyal companion, a cat named Angelica, Aric goes on a quest to find the solution and save his tribe. Aric is an inspiring and empowering character who will appeal both to kids and to adults. His relationship with Angelica (the cat) is real and believable. The story presents Aric's quest in poetic language, with beautiful descriptions that mesmerize the readers. This story will appeal to kids of different ages. The younger ones may need to have the adults read the story to them, and the adults will not be disappointed either. As an adult, I read this book in one sitting. Kids, especially younger ones, may not be able to do that due to shorter attention spans, and that's why the author divided the story into fourteen chapters, each ending with the readers wanting more. On a more practical note, this story can help kids cope with the loss of a pet, especially a cat, as it presents an interesting interpretation of the idea that cats have nine lives, an interpretation that helps the readers understand the title of the story and the name of the cat. The author's note at the end will provide the young readers with the basic understanding of the Ice Age. After reading the story, they will be interesting in learning more about the Ice Age, no doubt.

I really liked this book. it is aimed at a younger crowd, and of course people who love cats. I had two cats and had to have them both put down. It was very traumatic. how the author relates the cats mannerisms is terrific. I saw my 2nd cat in this story. How I feel toward my cats was revealed through the authors words. at the worst part of the book when the cat was going to be destroyed, oops, can't give that away...anyway, lets just say it brought alot of memories back. The way she weaves the underdog warrior with the cats mission was excellant. Lets say I always look for heroes in my stories. And to find this hero involved with,,,what...a cat..sounds alittle strange for a grown-up to read. This book will make the grown-up in you feel connected with the heart, your heart. I downloaded it to my Kindle and could not have been happier. I thank the author that she made it affordable to us Kindle readers. So if your sensitive to animals, especially cats, you will enjoy this book.

The book started out with a great description of the setting that made me feel as if I were there. This talented new author is very good at using words to paint a very detailed picture for the reader. The

fascinating story of a boy and a very special cat held my attention to the end. Every good book needs a villain, and this book has one in Brin/Brown. The author's storyline made it easy for the reader to dislike "the evil character". I could definitely relate to the boy's love of the cat. I didn't want to put the book down, and I will be anxiously awaiting the next book in this delightful series.

I haven't come across such a sweet tale in a while, a book that felt rich with history of cave dwelling people, yet at the heart of it all, a little cat, Angelica who appears at the right time to lead these people into a new land. A well-written book, interesting characters, description showing me times long past. A great story that I couldn't put down, and made me smile at times, and shed a tear at others. My compliments to a very good author who took subject matter we normally don't hear much about, and gave it a heartfelt twist with a truly angelic cat. Just loved this!

I bought this charming little story for my 9-year-old. She devoured it in a single sitting, and hasn't stopped talking about it since! Coming as it did with such high recommendation, I had no option but to read it for myself. Happily, I can confirm my daughter's review. Nicely written with realistic (pre-)historic context and confirmation of my belief that cats have co-existed (and have had a special relationship) with humans for millenia. I do hope that the "Angel Cats" title is a hint of a series to come. Neither I nor my daughter can wait!

What struck me about this e-book was its economy of style : it is written for the younger reader, but doesn't talk down to its target audience. It is an engaging work with an interesting take on the "nine lives" theory. Any child who has recently lost a beloved cat will appreciate it for this aspect alone. I thoroughly enjoyed reading it, and hope to see a series in due course.

as i was reading this, i lost track of where i was and what i was doing. suddenly i found myself inside the story. Angelica is a great character. the prose was extremely descriptive. i eagerly await the next book in the series. I keep thinking of this take on the 9 lives of a cat, and i keep seeing these scenes in my head like i have just watched a very good movie. well done linda deane, well done. i am the author of the Cat Land books.Â Cat Land: Midnight's Gambit (Volume 1)
