God's Crime Scene: A Cold-Case Detective Examines The Evidence For A Divinely Created Universe

Synopsis

There are four ways to die, and only one of them requires an intruder. Suicides, accidental, and natural deaths can occur without any evidence from outside the room. But murders typically involve suspects external to the crime scene. If there's evidence of an outside intruder, homicide detectives have to prepare for a chase. Intruders turn death scenes into crime scenes. Join J. Warner Wallace, former atheist, seasoned cold-case detective, and popular national speaker as he tackles his most important case ... with you on the jury! With the expertise of a cold-case detective, J. Warner examines eight critical pieces of evidence in the "crime scene" of the universe to determine if they point to a Divine Intruder. If you have ever wondered if something (or someone) outside the natural realm created the universe and everything in it, this is the case for you. J. Warner Wallace is a cold-case homicide detective, popular national speaker, and author of Cold-Case Christianity. He's been featured repeatedly on Dateline, FOX News, and Court TV. He's part of a three generation law enforcement family. J. Warner and his wife have four children and live in southern California.

Customer Reviews

I found this book interesting but for me a bit difficult to follow. The format was not conducive to readability.

Love how this material is presented in a way that is easy to understand!

such a good read from such an interesting author -- seller delivered promptly in good condition

Unusual and fascinating approach to making his case for the existence of God.

Excellent book that hits at the core items that need to be explained no matter what world view you have. Wallace clearly leads readers through the investigation to the one remaining suspect.

Excellent defense of circumstantial evidence for the existence of supernatural creator of the universe. Author changed from atheist to theist based on his review of the evidence.

Tremendous to grow deeper.

Great way to do apologetics. Lots of nice graphics, too. Highly recommended for high school & adults. Faith and reason, baby!
