Egyptian Mythology: A Fascinating Guide To Understanding The Gods, Goddesses, Monsters, And Mortals

Synopsis

From what we know of history, Egypt, along with Sumer, were the foundations of civilization. The Fertile Crescent, which stretched from the Nile Valley to the twin rivers in Mesopotamia, gave us our earliest glimpse of organized man. But organized how? For one, both locations gave us writing - hieroglyphics in Egypt and cuneiform in Sumer. There is still some debate about who was first. In this audiobook, we will start by looking at the gods and goddesses of Kemet - Ancient Egypt. Then, we will turn our attention to the monsters which likely gave them nightmares and humbled them in their quest to bring order to the world around them. Finally, we will look at the mortals which shaped their civilization and made Egypt the bedrock of our own history. Though Egypt today is only a third-world nation, struggling with terrorism and poverty, their heritage remains vital to the understanding of who we are as a species.

Book Information

Audible Audio Edition

Listening Length: 1 hour 22 minutes

Program Type: Audiobook

Version: Unabridged

Best Sellers Rank: #42 in Books > Audible Audiobooks > History > Africa #98 in Books > History > Africa > North Africa #125 in Books > Audible Audiobooks > History > Ancient

Customer Reviews

I read this book with my 10-year-old son. One of the best resources for the study of Egyptian Mythology. Easy to read and easy to quickly find the information you're after. Both of us enjoyed the book very much. It highlights many of the hallmarks of ancient Egypt civilizations including their beliefs in the afterlife and etc. An interesting not-too-heavy read and a great standby reference.

This has been an interesting read, if I may say so. Interesting because this is the first time that I've read on the Egyptian Mythology. But even so, it has been one complete read. It's been nice to read on Cleopatra and the other personalities that made Egyptian mythology a fascinating study.

When you take out the preview, this is about 755 locations. So it's pretty short. Oddly, I came away from it feeling bad for Sett. I've never gotten that from a book on Egypt before. It is very Moorcockian in the view of the Law. Picked it up while free.

Anyone can be enamored by the takes of Egypt, but it takes more than a picture of the Sphinx and the great pyramid to understand such an ancient civilization. Without getting mired in details, this book will hopefully open a door to further discoveries.

A great resource for the gods of Egyptian mythology, great reading all around, informative and educational. I received an ARC and am voluntarily reviewing the story.

As a homeschooling parent, it's very important to find resources that not only teach but keep your child entertained and wanting more...this is one of those books!!

Wonderful, Educational, Beautifully illustrated! It says it's for Kids, but this book will make a great addition to anyone's library!! Very happy with it and I think my son will really enjoy getting this present for Yule!

GREAT!!!
