The FOA Outside Plant Fiber Optics Construction Guide

Synopsis

This textbook is a guide to outside plant fiber optic construction, basically the process of installingthe fiber optic cable plant including the work necessary before the fiber optic techs begin splicing, terminating and testing the cable plant. This book was written by Joe Botha of Triple Play Fibre Optic Solutions in South Africa as a textbook for classes he teaches on construction. Joe, an FOAMaster Instructor, created the course to fill a need for training OSP construction crews. The bookcovers topics which are rare in textbooks, practical solutions to designing and installing the fiberoptic cable plant. It is an extremely valuable reference book for all owners, designers, supervisors and installers of fiber optic OSP networks.
