Kindergarten-Grade 4--As in their previous collaborations, Celenza brings a famous musician to life while Kitchel provides energetic art. This time, they present the story of Beethoven's despair over his deafness and his eventual triumph as he gives himself over to the symphony that highlights his struggle to survive as a musician. Originally written as a celebration of Napoleon's victory, the four movements were meant to reflect Bonaparte's courage and heroism. Soon after Beethoven completed them, however, he discovered the great warrior's treachery in declaring himself Emperor of France. The composer ripped a copy of the score he had intended as a gift, but his friend Ferdinand Ries prevented him from destroying the composition. The Bonaparte Symphony was later renamed the Eroica, or Heroic Symphony. Celenza's research into the details of this piece of music reflects her scholarly background; she unearthed primary-source material that is described in an author's note. The stylized watercolor-and-ink paintings evoke the mood of each movement; for the first one, Napoleon's horse seems to jump right out of the musical score. To reflect the French origins of the symphony, Kitchel backs most of the illustrations with a toile design. Although there

are many books on this composer, such as Barbara Nichol's *Beethoven Lives Upstairs* (Orchard, 1994) and Mike Venezia's *Ludwig van Beethoven* (Children's, 1996), this one, with its emphasis on one segment of his life, is a worthwhile purchase.--Laurie Edwards, West Shore School District, Camp Hill, PA Copyright © Reed Business Information, a division of Reed Elsevier Inc. Celenza's series for children on major composers and their works is unparalleled. A fantastic classroom or family resource. My daughter uses these to teach 1st-2nd graders who will blow you away with their understanding and enthusiasm for music and music history. Highly recommended.

I am in love with this series of books for children! I own three of them and can't wait to get the rest. This is a perfect series for homeschooling families, or parents who want to supplement what their children are learning outside the home. This book not only tells the story of Beethoven's life and inspiration for writing *The Heroic Symphony*, but it also gives some of France's history at the time that Beethoven wrote it. The illustrations are beautiful and truly works of art in themselves. This book will be used by our family and passed down to be used again and again. The CD which accompanies it is very well done. My children love to listen to the music and love the story that goes along with it. I feel that the love of classical music is a great gift to give any child. This book is well worth the money, and hard to find at a lower price! Well done!

This is an excellent book to share with a young person - age range three to about age eight. The lesson taught is one of never giving up. Adversity may make the task more difficult, but not impossible. Telling the story of Beethoven in this way was a brilliant move. Very highly recommended.
