Coral Reef Food Chains

Synopsis

Intended for ages 5-9, this book takes readers on an exciting underwater journey to one of the world's most fascinating habitats. Stunning photographs and detailed illustrations help show: the relationships between the plants, herbivores, carnivores, and omnivores that live in and around the reef; the dangers to these fragile habitats; why coral reefs are described as the rainforests of the sea.

Book Information

Lexile Measure: 880L (What's this?)
