Chef AJ has followed a plant-based diet for over 33 years. She works as a chef and culinary instructor in Los Angeles. She is also the creator and co-producer of www.HealthyTasteofLA.com, an annual event in Redondo Beach, California where the finest in plant based cuisine meets the best in nutritional science. Co-author Glen Merzer is a playwright and screenwriter living in Los Angeles. He is co-author with Howard Lyman of "Mad Cowboy" and with Howard Lyman and Joanna Samorow-Merzer of "No More Bull!".

It's hard to fairly review this book. My wife is a big fan of Chef AJ, and she was looking for an SOS (salt, oil, sugar) free cookbook. I got her this one thinking it was exactly what she was looking for, however this book was written in 2011, apparently prior to Chef AJ's adoption of a nut-free and lower-calorie style of cooking. The main section of recipes are desserts. Most of the recipes are either based on nuts, or dates. I'm sure they are fantastic, however they are not what my wife was looking for. Will probably return it as a result. Also recipe books should always include photos, which this one does not.

Great simple recipes

I love Unprocessed! This book has helped put us on a healthy eating path!! have an illness and this came to me at the perfect time. The universe will bring us what we need at the right time!

This book had a lot of great information and recommended things that seem easy to follow. It is worth the read if you are looking to improve your health. I love Chef AJ and all her work.

I love, love Chef AJ. I belong to all of her websites and listen all her webinars. Her way of eating is perfect for me and I am losing weight without portion size. Everything is delicious.

Following the McDougall Diet I needed some interesting recipes to get my family to eat some of the same meals with me. I stumbled on AJ and the Chef videos and was intrigued by the simplicity. After trying several of the recipes in the video I was convinced there may be more in her book. The title is not entirely true- all are not unprocessed, though pretty close. The secret of coconut aminos changed everything for me. The Thai sauce with noodles and the brownies are my favorite.

I like the idea of this book, not eating processed foods and not using salt, oil, or sugar. I have just started concentrating on a plant-based diet and this book is very helpful. Chef AJ also has a YouTube Channel where you can watch her make some of the recipes in the book. She and Julianna Hever - the Plant-Based Dietician - are fun to watch.

I was interested in her recipes and was not disappointed.
