Legal Nurse Consulting: Principles And Practice

Synopsis

Edited by a seasoned Legal Nurse Consultant (LNC), this reference is for nurses who provide consultative services, both in-house and independently, to attorneys, insurance companies, risk management departments, government agencies, and others. It examines the roles of LNCs in a variety of practice environments and legal areas. Designed to meet the needs of both novices and advanced practitioners, *Legal Nurse Consulting: Principles and Practice* focuses on the skills, processes, and information requisite to quality LNC practice. Written and reviewed by experienced, practicing LNCs, chapters include topics such as: the LNC's role in professional negligence, product liability, toxic tort, and criminal litigation; life care planning and damages assessment; the nurse as expert witness; working with experts; preparing and evaluating deposition and trial testimony; principles of legal writing; legal theory; medical record and case analysis; medical literature research; client interviews and communications; independent medical examinations; discovery/disclosure; alternative dispute resolution and medication; trial preparation and trial; the LNC's role in the insurance industry and in risk management; business principles for the LNC; ethics, professionalism, and standards of practice for LNCs.

Customer Reviews

Good informative book

This book is just what I needed to familiarize my self with before taking this course. Excellent

reference book too!.K. W. RN

great resource

Excellent book for any novice legal nurse consultant.

I loved this book. It has everything in it you will need to understand this complex and exciting field of Nursing. If you are considering a career change into Legal Nurse Consulting, this is a wise investment to get a feel and overview of the field before you invest in any other educational material. A "must have" resource book for practicing LNC's.

I think the book really pinpointed all the pertinent information that a new nurse consultant needs in order to begin. Although the text does cover how to begin your business; I do suggest that you buy a recommended book on how to market yourself in order to be successful in practice.

If you are thinking about becoming a LNC, this is an excellent book to purchase. It was the text book that I used in class. It's professional, easy to read and comprehend. It covers different types of laws, contracts, areas of practice, litigation, expert witness, etc.

This book seems to be very well written and very well researched. I can say that for a beginning nurse consultant, that it answers many questions that you might have. I highly recommend it. Put it in your reference library.
