# Dungeon Masters

## Synopsis

Ops, this is Trix Hunter. Confirming my party of six is go. Understood, Keeper 7. Be careful down there. Beneath a dome in remote China lies a rift to another dimension. To a deep, dark dungeon filled with monsters and magic. Its levels can be explored by scientists, treasure hunters and adventurers by anyone willing to pay DragonCorp a million dollars a pop. The question is, how deep dare they go and hope to survive? Trix Hunter knows as a dungeon keeper she's spent years mopping up the blood. But after Trix discovers the dungeon is inexplicably expanding, she finds herself forced to travel deeper than anyone has ever been. Hunter becomes hunted by a DragonCorp corrupted by an ancient evil, one intent on escaping a prison built for it long ago. To stop the so-called Godleech, Trix must band together with a drunk, an old man, and a brother thought lost to the depths. Only they and a besieged other dimensional army have any hope of stopping two worlds merging and transforming both into a living hell. The forces of evil are massing. The clock is ticking. This is no game... a splendid adventure story and a fabulous work of fantasy... British Fantasy Society Journal On Seven Cities Of Old... unashamedly pulp, reminding me of such genre greats as Michael Moorcock and Edgar Rice Burroughs... San Francisco Book Review on Engines Of The Apocalypse

## Customer Reviews

Looking forward to book two. I enjoyed reading this book. It was a lot of fun. My only question is, Are these characters blind? I ask this question because the way that the story is written, the group keeps getting into situations that seemingly have no way out. Yet at the start of the next chapter there is always a hidden lever, overlooked lever, vent, or whatever is needed to escape whatever dire straits they are in. Still a fun read, just so many close calls that you no longer get excited by them because you just KNOW that something they overlooked will save them. I can recommend this book for fantasy fans and dungeon divers.

If you read a lot of novels set in an RPG-like universe -- and, with a title like "Dungeon Masters," this book is clearly positioning itself as an RPG-type-world adventure -- you have been disappointed, probably many times. This is one of the very best novels in that subgenre, period. Prepare to be ENTHRALLED. The characters are 3-dimensional -- some are more heroic, some are more amusing, some are just so very HUMAN and REAL-feeling. The plot MAKES SENSE. In fact, the entire book from start to finish is incredibly entertaining and fun. For fans of the RPG world, whether you play or not; for people who are just looking for a quality read, inexpensively priced (free for Kindle Unlimited members like me); and for people thinking about writing their own RPG novels -- this is a book you should definitely have on your shelf or on your Kindle. It's the best adventure book I've read in a long time. Really well done.

I read this book over just a couple of hours and enjoyed the flow of the story. To be honest, I don't remember any typos, if any, and if there were any, they did not distract me from the story itself. The fact that the main character of the story is female, and not one of those "Oh help me please" women that seem to be prevalent within a lot of stories just thrilled me to pieces.

A rip roaring novel that will appeal to a range of readers. Wild has a way with words and has woven an entertaining story that will keep you turning the pages until you reach the very end.

The puns were a bit much but well written and a great story. Would love to see more of their

adventure
