## Customer Reviews

Penny Arcade is a comic that my husband likes to read online and I was so excited when I found the physical books with all of his favorites strips. The book is a paperback but really good quality! This book is not one that would fall apart at all or cheaply made. I ordered the book and it shipped fast and arrived quickly. Just in time to give it as a gift for the holidays! I looked over the books and they were in great shape and none of the pages or the spine had damage. The pages had vibrant colors and illustrations. I really do think this would be loved by anyone who is a fan of Penny Arcade or good comics. It is suitable for adults or kids. This comic book is great for anyone in your life who is into gaming and comics, they often have comics about gaming ( console and pc). My husband is a huge fan and this was a perfect gift for him. He's such a big fan that I ended up buying three more of the books! I will continue to buy the rest of the books to complete the collection very soon.

The book is hilarious; Mike's comments really drive the already funny strips home. The introduction is by Scott Kurtz and it's hilarious although I think he goes overboard with the cursing. I guess because he doesn't do it on his own strip he lets loose over here, however it gets to the point where it's a little gratuitous; but I don't give a f\*\*\* it's still a good intro. I'm not giving it 5 Stars because the "bonus material" is pretty weak; the art itself is phenomenal, I love Jerry's linework and style. It's also really neat to have a look at the first designs from their upcoming game. However it doesn't compare to the bonus section from the last book where every page was beautifully drawn by Jerry and perfectly rendered by Hawk. Overall a very fun read, highly recommended.

I've followed Penny Arcade for many, many years and I adore their content. For anyone who's involved or keeps up with gaming/media news, the comics are always spot on.

The title is really all you need to know about this particular phase of the great history that narrates our heroes Gabe and Tycho. Do not underestimate their efforts contained within this tome, for your destruction will be sealed should you do so.

"Penny Arcade" is still one of the consistently best web-comics out there, and being able to browse through the older collections in printed form is great fun. The third year of the comic, chronicled herein, was great in both gaming news to satirize, but also in the quality of the comic. If you were looking to get someone turned on to the glory of Gabe and Tycho, this would be the collection to tempt them with.

Keep them coming. I need something to read while waiting for the Apple Geeks omnibus. Penny Arcade should get Hawk to do more of their coloring for their future covers.

This book is a collection of all the comics they produced for one year. If you haven't read the Penny Arcade and are not easily offended then I definitely recommend checking it out.

Love these collections from penny arcade, if you like these you should also check out pvponline too!
