## THE MEDUSA FILE

SECRET CRIMES AND COVERUPS  
OF THE U.S. GOVERNMENT

CRAIG ROBERTS

## Synopsis

From World War II to present, there has been hidden within the highest levels of government secrets that you are not supposed to discover. During the period of 1940 to this day the power brokers, working from their positions of trust, have committed and then covered up the most heinous of crimes known to mankind. Investigative journalist Craig Roberts, author of "Kill Zone--a Sniper Looks at Dealey Plaza", now provides us with the results of his ten -year investigation regarding the secret crimes and coverups of the U.S. Government. You will read his case files on such subjects as the Japanese "Devil Unit 731" who experiments on American POWs in WWII with germ warfare weapons--and what happened when the war ended and the commanding officer was hired by the government instead of hanged for war crimes; Operation Paperclip in WWII when the U.S. brought Nazi scientists to America to work for us on our weapons programs instead of standing trial as war criminals; CIA and military mind control experiments on unsuspecting citizens--including children--without our knowledge; Secret drug and bacteriological weapons experiments on the American population; Atomic guinea pigs, Agent Orange, and the Gulf War Syndrome; what really happened to over 30,000 U.S. POWs after World War II, Korea and Vietnam; International assassinations, drug smuggling and money laundering; What the media did not tell you about the shoot down of TWA 800, the bombing of Pan AM 103, the Oklahoma City bombing, the crash of Arrow Air in Gander, Newfoundland, the derailment of the Sunset Limited in Arizona, the World Trade Center bombing in 1993, and much more.

## Customer Reviews

This is an incredible book that should be read by everyone in the USA ! I have studied the Vince Foster case for quite a while, and this book puts all the pieces in place concerning his murder. I had no idea how so many events tie together, but the proof is there. I am simply amazed that anyone would vote for Hillary after reading about the laundering of drug money through her law firm. How can we clean house in America when these are our politicians, people who are criminals. I can recommend this book as one of the best books of TRUTH I have ever read.

Roberts tells it like a real pro because he is one. One of the best at documenting what really happened after WW-II, which was that just about every war criminal in the world was taken into the U.S. and treated like a king. And all the while our G.I.s were denied medical benefits and many were left sick, jobless, and hopeless. Interesting Nazi technology was also illuminated. Other subjects of note were: mind control experiments, Agent Orange, Gulf War Syndrome, and the experimentation done on many, many Americans. This book is well written, well documented, and Craig has done a super job of marrying his military experience with the excellent research that he has done. A must read for G.I.s who might be thinking "Something is wrong with this picture." Craig puts that picture into focus. The Medusa Files gives extraordinary information to the reader. It also answers questions I personally have wanted answered for years. This is my third time to read this amazing book. I keep loaning my books out never seeing them again. This time I ordered on my Kindle so I can peruse at my convenience. If you are wanting answers to some of the most dramatic events in U.S. History, then you won't be disappointed with The Medusa Files.

This book has some pretty interesting stuff for the first several chapters, which seem to be fairly well

documented. However, the last few chapters have little, if any, documentation and begin to sound like the rantings of a madman. In particular, he devotes a good bit of space saying that Saddam Hussein has various weapons of mass destruction and that he is planning to use them against the USA. I believe that has already been disproved. It is also bothersome that the book is copyrighted 2010 (although it may have been written in 2007) and Saddam was hanged in 2006!

I've met him. He's a meticulous, precise, pains-taking person.

I'm fairly well informed about governments, generally, and about our government, in particular; but this book is a real eye-opener. The scope of our government's corruption is even worse than I thought...if the author is unbiased and honest. It bothers me that he never mentioned the involvement of Bill Clinton, in the Iran/Contra scandal, while he was the governor of Arkansas....

Everyone suspects various levels of ill doing by the federal government. But a small percentage can only grasp the total gravity of the current situation. Read this book. Only the Almighty can solve the problems. But this info will prepare you for what to expect..

A very well documented and a must read for all who want to learn who our covert government works or does NOT work
