Curtis Zimmerman is a highly sought-after speaker and author who has presented his life-changing message to over 1 million people around the globe. He expertly accelerates culture change, energizes organizations and creates greater accountability. From Fortune 500 companies to the United States Air Force, trade associations, universities, and non-profits, Curtis inspires his audiences to "Live the Dream."

Curtis is impacting, reflective and contemporary. I appreciate his ability to get wrapped up in his subject matter and ooze both information and experience as he impart suggestions, experiences, and things to contemplate to his readers. All easily applicable to daily life, particularly for those who find themselves in a place other than the one they had envisioned ... I always walk away from a Curtis Zimmerman experience thinking farther down the road, establishing new goals and challenges, with a more humble approach and attitude to guide me.

I saw Curtis at my daughter's orientation to FSU, and I was mesmerized by his performance. I was more than a little surprised at how he kept a roomful of college freshmen on the edge of their seats, or out of their seats, as his performance has a lot of audience participation. His message of living your life as a performance was inspiring to everyone in the audience, and now you can be part of that audience from your living room. The message that Curtis spreads is one of taking control of your own life; a message I wholeheartedly support through my work as a life coach and speaker. It's not just the message that's valuable, the delivery is so fresh and entertaining it just feels like fun. Do yourself a favor and buy this book...and start living your own dream!

Saw this fellow talk in Tallahassee, he was great. Has a way of connecting with the audience by sharing his own struggles & use of comedy. He spoke to a group of college freshmen but his message is universal. My husband was so impressed he suggested employer consider having Curtis speak at their national convention. The book just added another layer to "Living the Dream"

Great book on life and how you are in control of all of your decisions. You are the star of your own show!!!

Enjoyed the enthusiasm.

Needed for school. Worked out fine.

LIFE AT PERFORMANCE LEVEL is absolutely fabulous! This book came into my life at the absolute right time! This book helped me realize that I had the power to change my life. I started by simply changing the way I answered the question, "How are you today"? I feel like I am the one in control of my life now, and I'm loving it!

Meh, repeats "live life out of script" multiple times throughout the book. Guy is great, but this book is very lacking. Book is NOT a life changer as author attempts to claim.
