Biology For NGSS (2nd Ed)

Synopsis

Biology for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Life Sciences (HS-LS). It is a hybrid resource that's part textbook, part study guide and part activity book all rolled into one. We use an infographic style of presenting information, with annotated diagrammatic explanations. Our program and pedagogical approach requires learners to apply what they've learned in a previous activity to a new situation, not merely recall data. It's an enquiry-based approach.

Customer Reviews

Love times a million. Moving to new science standards & this is a huge help!

These pages are great for concept review or as a sneak peak into the days lesson!

Excellent study guide and practice for students. Super for getting students to be able to interpret data.

Nicely done
