This book and its companion *Virgin Sex for Girls* are a must for any therapist who works with teens and for the parents of teens.

This is all the information that I want my teen boy to know about having his own happy and healthy sex life (first and forever after) as well as making it wonderful for his partner. I would love to discuss this with him in person, but I don't think that's always possible even if I'm willing. I gave it to my 15 year old so he's prepared (hopefully) before he's experienced most of this stuff.

Okay. You dudes are all born randy, knowing all about girls and how to prevent paying child support at 15, knowing all about how to satisfy your girlfriend, which you're gonna get to just as fast as you can. Hey. Why not take a minute to bone up (sorry, couldn't resist) on what makes us girls tick? You guys are always wailing about how you don't understand girls. Well, just fork over that credit card, stay home from the bars and parties for a couple of nights, and come out ready to be the kind of guy that girls compliment behind your back, recommend to their friends, and remember fondly all your life. Trust me, guys, I am telling you that you DO NOT KNOW IT ALL. But read this book and you'll learn a lot more about girls and what we want--emotionally and physically.

I found out a lot of information from this book. It's what's needed for boys and men to become the lovers that women seek. I know with me I had to do quite a few double takes on this as I wanted to soak up all the information that I could. I would definitely buy this for a teenage son/boy. Sorry it couldn't be for any boy under the age of 14. It's very blunt and graphic for little ears.
