Customer Reviews

First released onto the market 2 years ago, Paul's courses have met with huge success: Review of Paul Noble Method by The City Magazine: "Relaxing and listening to the CDs, I found that I seemed to absorb the phrases taught, without even consciously trying, and quickly felt confident enough to play around with the different components and make my own sentences." Reviews by customers: "This is the most remarkable language course imaginable. I've tried several courses but this is on another planet. It is amazing!!!" "Paul Noble has a very relaxing and informal style to his teaching... I can already tell that my spoken French has improved permanently." "At last, an easy way to learn a language! Easy to understand plus an easy one to pop into the car CD player and use on the move, so no more 'I haven't the time...'" "The language is explained in a simple way and the teacher doesn't use complex grammar terms... For me, though, the absolute best thing about it is that it has allowed me to speak in full, proper sentences in French... A fantastic course and a well deserved 5 stars!" "I am pleased to report that this is really good fun to use because as you listen you are encouraged to CREATE VOCABULARY AND PHRASES FOR YOURSELF out of the bits of structure that you are picking up. Not only is it a completely non-threatening process but it is also

entertaining in itself." "For those who love languages but struggle to learn them this is a wonderful resource."

Who is Paul Noble? Paul Noble is a genius, yet he still left school unable to speak a language - he found that the traditional learning methods left him feeling 'confused, incapable and unable to really say anything'. Determined that there must be a better way to learn, Paul spent years devising his own unique method of learning languages which cuts out all of the grammar, all of the rote learning, and all of the stress. He began using his method to teach in his Language Institute and, hundreds of students later, he prides himself on never having had a student fail.

Loved this course. Very clear, easy to listen to, and really makes it easy to learn. Thru repetition and coverage of many words, phrases and French grammar, I feel my comprehension and ability to create sentences were greatly enhanced. Let alone my confidence. Looking for sequel? Thanks a lot! David, Sydney

Slow and methodical... I took four years of junior high and high school French 45 years ago and have tried other methods to revive what I learned back then. Although I'm only halfway through the set, they seem to be doing the trick.

I love this box set. Paul Noble provides tips and explanations on the language that are so helpful and easy to remember. I wish I had purchased this a year ago! It would have made learning French much easier.

This is ok. I listen in the car. There is much repetition which is good. It is difficult to understand the words at times.

Best way I have found to learn french.

Terrific! I love being able to learn at my own pace and I don't need the internet! Good job Paul Noble!

listen to the CD's in the car, French is starting to make some sense,. Some of the phrases and words are just a little strange, Been to France twice and never would need the word for sunstroke.

Other than a few other words like that it was fine

This is one of the best CDs I've used to learn a language. Paul Noble is a wonderful instructor and really explains the nuances of the language. His teaching technique really worked for me. I would highly recommend this course.
