## Customer Reviews

Bought for son to use in school and he is please with it. Son says he will keep for future reference.

The book i received was not what was advertised, It was an instructors review copy. I don't know what the difference is however, written across the front are the words NOT FOR SALE. Bad form on the part of the seller.

Such a great textbook. It's easy to read and provides current information about businesses and strategies they have taken to improve their marketing strategies.

Boring af

I hate school, but this came in handy for my assignments

Good

Needed it for class, its a good and helpful book for marketing

I haven't rented a book in the past so this is my first experience, but I think comments regarding the books condition would be a good idea, like in the seller's marketplace. The book was listed as being in good condition, but I was not expecting to see a whole chapter with highlighting. I might have chosen a different copy had I known, as I do not like to study with someone else's highlighting and notes.
