If you are looking for an honest book about life and issues that you may need help learning how to pray about, then this is it. It truly makes you think and probably saved my marriage. If you have any doubts at all about how to pray for your husband or if you should pray for your husband or even when to pray for him, then this book is for you!!

My wife has been enjoying this book with several other gals in a Bible Study group. As I talk with her about this book it seems like there's only one true chapter of content and the rest of the chapters are under-developed / written as a side-bar comment. By way of example, Omartian's 3-page chapter on sexuality felt very lacking to me as a husband. The thoughtfulness given in this chapter is (I feel) only relevant in circumstances where the marriage has entirely failed in sexuality. While this is somewhat relevant to the general perspective from which the book is being written around it would be awesome to have conversation around what sexuality looks like when it's not failing horrendously so that there is guidance to aspire to.

Excellent. Thank you Stormie. She is so real and honest and this book is great. For individual or groups. She shares her story as well so to help the reader identify more. If your marriage is in need of assistance, I highly recommend this book. I mean what marriage does not struggle at times. I've been with my man for 40 years!!!! It takes work and God. Marriage and God are like an Oreo cookie. God is the sweet cream in the middle that keeps the two pieces together.,,,always told my children that..lol.

This was advertised as the book and the study guide and it's misleading b/c it's only the study guide. Now I need the book and the way is set up my account won't let me buy a "second" e-copy of the same book. Their records show I already own an e-copy of Power of a Praying Wife. So now I'm a little unsure of how to get an e-copy of this book. I'm sure the book is excellent but the study guide alone isn't working for me. I wouldn't have bought this if I'd known it was just the study guide.

I think every engaged woman needs to read this book and study before walking down the aisle. I learned so much about what the Bible teaches- and even though submission is NOT a popular topic, it was helpful to me to understand and learn what my role is and how I can truly encourage and support my husband by being submissive ( does not equal doormat) in a biblical manner. Stormie's perspective is sound and Spirit led. I also appreciated her other books including Power of a Praying Parent.

I recommend this tool and the book to all women preparing for marriage or married. I have mine highlighted, ear marked and stained with tears. It is the best source for my marriage other than my Bible. I have given numerous copies away.

Please note that most of these prayer focused books by Stormie Omartian are offered as (1) a book, (2) a study guide, and (3) a prayer book. The original book is the BEST purchase if you are looking for just ONE purchase. THIS book is the STUDY GUIDE. It does not contain any prayers or content from the actual book. It is ONLY a book of study questions to act as a companion to the original book. If you are in a study group, looking to lead one, or even if you just want to study more on your own, you want to purchase this in addition to the original book, the study questions make you think and evaluate your relationship with your spouse and focus on improving your prayer life. I highly recommend all of the books; just be aware of which one you are purchasing, each series uses the same cover art on all three books.

This is my second purchase of a book written by Stormie. They are both spirit-led and biblical writing books that I love to read and share with my female friends. It is a book that helps, guides and directs one to pray for everything no matter how big or small. It's another fabulous book! They are soo good that I'm starting a book club with women about being a "praying wife!"
