"Mary Coulter" received her Ph.D. in Management from the University of Arkansas in Fayetteville. When she's not busy teaching or writing, she enjoys putting around in her flower gardens, playing the piano, reading all different types of books, and enjoying many different activities with husband Ron and daughters Sarah and Katie.

I am taking an Entrepreneur class, and was assigned this book. The content is good, and does a great job of providing accurate, helpful information. However, there is so many spelling error, weird ones with extra hyphens in words that really don't need them. I'm in the U.S., and checked the publishing location; maybe it's from the U.K. - I know we spell some words differently than the Brits. Nope, published in the USA. And the authors were even American. It makes me wonder who copy edited this; they shouldn't have been paid. Otherwise good book, but errors are an eyesore.

I found this textbook to be extremely essential to passing my Management course. Not only is it informative but I found it to be inspirational and uplifting. Whether you are taking a course in Management or not, this text helps guides you to be a greater leader with the skills to manage yourself and others. Plus it is easy to read with pictures and large font.

Good, up-to-date information. Generally well written. I do like the modern examples, shows the authors did their research to get good anecdotes. I don't like how the book is laid out, with all the side-bar type information. The info is good, but it makes reading the text difficult, as I'm getting distracted and having trouble with continuity of the text. The end-of-chapter stories are good, along with the web-based instruction that's extra. Over all, the authors write well and know their topic, as well as their audience.

Arrived with no missing pages but I wish it had a binder with it. It's definitely a less expensive alternative to a traditional text book. I also liked that I could throw a chapter in a folder and take it with me to work or on the train for reading without lugging a large text book. I found the test associated with the text publisher are not as closely linked as they could have been. There is a lot of tiring material in here and it gets redundant and cumbersome as you read on.

This text book is exactly what I needed for class. It was in perfect condition. It has a lot of good information. If anyone is interested in the fundamentals of management I would recommend this book.

In order to use this access card, your school professor needs to supply you with a course ID. If your professor isn't enrolled with Pearson for a course ID (because the online access isn't required), this access card is useless! You can't register this access card without a course ID. This access card does not allow you to study on your own!!!! Pearson told me that the American version of MyManagementlab is not available for studying on your own! It is only available in the global edition. SO, unless your instructor has a course ID or they require the access card DON'T buy it. Also, since I opened the tab, I can't return the access card. So I spent my money on NOTHING!! This people are making a killing on selling these access cards that are useless!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!

The book is perfect. Good condition and perfect for class

This was such a confusing and horrible textbook because it literally read like stereo instructions. I did not like that there were myths to bust at the beginning of each chapter and that there was so much word garbage on each page. The instructor explained the concepts much better in class to be honest.
