Customer Reviews

"Put your heart in the write place with these books of 12 fold-and-mail-style letters that use clever prompts ("I knew you were the one for me when..." "What I love about us...") to make composing meaningful missives a whole lot easier. My favorite is Letters to My Love. I've been telling people this for years: What a partner wants to know is how you really feel. This will make him or her swoon!"- Oprah

Some people want to know what the 12 letter prompts are before buying, so here they are:When we first met...I knew you were the one for me when...What I love about us...I promise to you...It's the little things, like when...You are remarkable because...Here's a story I've never told you...This is an invitation to...I never want to forget this...I wish for us a future full of...[Blank - write your own][Blank - write your own]

Saw this in a boutique, knew I'd look on later!! Nice quality book with pages resembling envelopes

Super cute idea. I intend to gift these to my fianc $\tilde{A}f\hat{A}$ [©] for our upcoming wedding just to capture all the things I love and cherish about him and our relationship. Sappy? You betcha. But what timing could possibly be more appropriate for a little extra sap?

It is not the best product ever. The moment I opened it, the front cover was not properly glued to the pages. I decided I would glue it myself when I was done writing since I needed the book in that moment. Whilst I was writing, the pages came off the cover completely. It's just disappointing since I would never expect that from a book. Overall, the book is clearly poorly put together, but it makes a good gift.

I think that this is a great gift. I enjoy the prompts that are given so you do not have to think of something to write by yourself every single time, and I think the length for each letter is great. My significant other loves the gift. I gave it to them as a birthday present and count down until I relocate to their city. Great present.

I was so excited for this to arrive, I opened the package and pulled it out, upon opening it I felt it sort of feel like it was crumbling and when I fully opened it I noticed that it was ripping apart. I'm very dissapointed. Hope to get a refund because this felt like a rip off. Literally.

I was excited to purchase this however the binding and the notes are unglued as shown in the picture. I just received this today, so I guess I will have to improvise.

Very nice book, and a great gift to give to your loved one. Fortunately this book was in great shape and I can't wait to start writing in it. It's nice that it also comes with stickers you can seal your envelopes with.

I bought this for my boyfriend as he is in the military and wanted to give him a gift he can take with him. I love this little book. It's easy and helps prompt you for the letters to your significant other. The only issue I ran into with this book is the binding comes undone a little bit and sometimes the pages rip as you are sapose to put a magazine under the page due to them not coming out of the book. (which even with a magazine under it it still rips a bit) but even with those two issues I ran into its perfect and I know he's going to love it
