Introducing Anthropology: An Integrated Approach

Synopsis

Introducing Anthropology: An Integrated Approach is a concise text for the introductory-level, general anthropology course. The student-friendly format presents a unique holistic approach to anthropology, examining the biocultural nature, evolution, and behavior of the human species. Park's engaging narrative and thoughtful level of detail makes anthropology both interesting and accessible for students.

Customer Reviews

Michael Alan Park (Ph.D. Indiana, 1979) is a professor of anthropology at Central Connecticut State University, where he has been on the faculty since 1973, teaching courses in general anthropology, human evolution, biocultural diversity, human ecology, forensic anthropology, and the evolution of human behavior. His interests focus on the application of evolutionary theory to the story of human evolution and on the quality of science education and the public perception and understanding of scientific matters. He is the author or co-author of four current texts in anthropology as well as technical and popular articles.

great product and service

Brand new book. Came in three days!

Seems that the writing styles is below college level.

Excellent book. And in great condition.

Came just as listed and in a timely fashion. Thank you!

Amazing with tablet app

Great book

Everyone already knows that textbooks are a racket and this book just came out so I had to buy it new but out of all the textbooks I have had to buy for classes this one is so small I see no reason why it costs so much. This book But for anyone expecting a massive textbook this isn't it. It barely weighs a pound. But I digress into the main review. I haven't read much of it yet but so far it is very easy to understand and well written. The author seems to realize how to get the point across to kids. Also makes it kind of enjoyable but that is my personal opinion. Not much of a review but its a good book in my opinion.
