If you read the "FIRST" book in this saga, DON'T BUY THIS BOOK. Why? The first book was good, right? The problem with reading this "second" book in the saga is that YOU'VE ALREADY READ IT!.I started reading this book thinking the first chapter was just a recap of the first book to bring you to the new story, right? But there was too much detail, and it seemed like I was just reading the first book again, starting from the middle. That's because I WAS. This is not a sequel to the first book, giving more information about what happened to Airel. This is an exact REITERATION of the first book, starting from Airel and Michael's date. I paid for the exact same story (or half of it anyway) that I had already read, in the guise of a sequel.I annoyed me enough that I don't even know if I want to buy any more of the series.

I would recommend this book and the other books in this series to anyone who enjoys YA Paranormal Fiction. Readers of Twilight, Starcrossed, Hush Hush, or even Mortal Instruments will enjoy the themes that play out in this series. Love, betrayal, courage, even self discovery.I especially like that I can recommend this series to friends who have teenagers. Airel is a character who makes good decisions, is rational, brave, and loyal. Even though I enjoy the grand romance in some of the other books mentioned, I like that this series is more about Airel becoming who she is destined to be, rather than her falling head over heels with someone she is destined to be with.I am really looking forward to purchasing all of the books in this series. Books 3 and 4 did not disappoint and I have high hopes for the rest!

I recommend this book to anyone who loves stories about fallen angels. Having a female

protagonist who is strong and confident makes this book a great read. The glimpses of the past make you want to read ahead so you find out what happens. Great read!

If it is possible this book was even better than the first. Airel finds out who/what she is. She finds out who her captor is. She embraces her destiny. She wins. She loses. It is glorious and tragic. There are a few golden nuggets for the young reader. I'm loving this series. The authors are brimming with talent without a doubt. I see peanut butter sandwiches in my future. I will be spending my lunch money on the rest of these books.

Not impressed. I think this series may be written by men, because the teenage characters -- especially the female ones -- are not only unrealistic, but unlikeable. Do they really think that all teenage girls do is cry, because Airel seems to do it every other page, to the point that it is incredibly distracting (and unattractive in a heroine, in particular). Big draws for Airel: (1) her hair and skin just magically straighten/clear up, making her suddenly beautiful, (2) she falls for a gorgeous boy, whom she constantly calls "mister" as if that's a trendy way to flirt, and tells us they have funny conversations (but never actually describes them), then he magically falls for her. Is this supposed to appeal to YAs? It's as if the authors looked at other successful YA novels and tried to use the same plot devices (young love-at-first-sight, suddenly finding out you're special, etc), thinking it would be a great formula, but somehow missed what it is YA really enjoy about those successful novels and/or plot devices. The result is a series that is both bland and condescending, making me feel with every page that the authors think YA readers are just superficial.

Sci-Fi is one of my favorite escape mechanisms for distressing. This was a good read.

Such a great series. Addicting. Awestruck. can't wait to read the next book. This is so good. can't stop reading. Loving it.

I bought this book because at the end of Airel Book 1, it pops up as the next book in the series. In reality, it is only a portion of book 1 with a new cover. As a fan, this is irksome. I would really appreciate a refund and the addition of a disclaimer that there is no new material in the so-called book 2.
